ESTABLISHED 1846. NEWPORT, R. I., FRIDAY, AUGUST 17, 1906.—TEN PAGES. PRICE TWO CENTS.

He'd Never Seen a "Ranney."

Buy a Ranney, if you buy any. You will pay less money for the same size than for any other box made, and get more satisfaction to boot.

Dr. Buck in his article on Children's Food, in the Boston Sunday Herald, cautions mothers against putting prepared foods in the food compartment of a refrigerator, as the average temperature, he has observed, is from 55 to 60 degrees, and germs increase in temperatures above 55.

Its Average Temperature is 45 Degrees.

Need any better recommendation? If the ordinary refrigerator won't keep food properly for children, it surely won't keep it for grown people. This germ growth is purely a question of temperature, and we know the results of the Ranney from actual tests, not from hearsay nor from printed matter which the factory gets out. The mineral wool packing, the hardwood casings, the perfect constructions—are all responsible for it.

THE PURE FOOD REFRIGERATOR.
From $6.00.

A. C. TITUS CO.

An Excellent Opportunity!

FOR SALE—Business and furniture of 15-room lodging house; fine location for business; nearly all rooms rented at present; rooms alone would bring $1,000 a year. Income could be largely increased by taking boarders. House has always had first-class reputation. Rent low. Price $1,000, no less.

WM. E. BRIGHTMAN,
Box 3. Corner Spring and Franklin Streets.

$35,000 WORTH OF
CHOICE ORIENTAL

And Carpets, Runners and Fireplace Rugs, also suitable pieces for parlor, library, dining room, den, etc., to match any scheme of decoration. Most harmonious soft and rich oriental colorings, all our own importation, will be cleared out at a great sacrifice.

105 Broadway.

BADLY DAMAGED BY EARTHQUAKE.

Practically Every Building Affected in Valparaiso.

Fires in Different Parts of City and Many Killed and Injured.

NEW YORK, Aug. 17.—The city of Valparaiso, Chili, is reported badly damaged by earthquake. The report received here is that the situation in Valparaiso may prove to be as serious as the San Francisco disaster. Practically every building in the city is damaged, and there are fires in the different parts of the city. Many persons are reported killed and injured. Earthquake has interrupted cable facilities to lower South American points and communication is restricted to the route via Lisbon.

Another report from Valparaiso is that the loss of life has not been confirmed. Fires are burning in various parts of the city.

One report which reached this city said that portions of Valparaiso were burning all night, and that the bodies of hundreds of its residents were buried in the ruins of the buildings.

The Central and South American telegraph company have re-established their main offices in Valparaiso, and are working with that city now. This would seem to show that the conditions are not so serious as at first reported.

Valparaiso is a fortified seaport of Chili, and the most important commercial town of the western coast of South America. It has a population of about 150,000. It is the capital of a province of the same name, and is situated on a large bay in the Pacific ocean, 75 miles west-northwest of Santiago, with which it is connected by rail.

The bay of Valparaiso, which is well sheltered on three sides, is bounded by ranges of hills rising to from 1,500 to 1,700 feet high on the slopes of which a considerable portion of the city of Valparaiso is built. On the south side of the bay are the spacious suburbs of Nuevo Malecon and Grand Avenida, from which pass out one of the finest of the thoroughfares of Valparaiso, the Avenida de Las Delicias. The lower central section of the city is constituted by the Almendral, having regular and attractive streets, and containing the principal business houses, the park, the Plaza Victoria and the national theatre.

To the northwest of this section is the quarter of the city known as the Puerto (or Port), in which are situated the greater number of the public buildings and the vast warehouses which line the docks. The port of Valparaiso is the terminus of important lines of steamers for Europe, by way of the Straits of Magellan and Panama and is the centre of the South American coasting services. Early during the present year there were a number of earthquake shocks in Chili, creating much alarm.

RECORDED AT WASHINGTON.

Heavy, Distinct Earthquake Lasted for Several Hours.

WASHINGTON, Aug. 17.—The weather bureau today issued the following earthquake bulletin:

"A heavy distinct earthquake was recorded on the seismographs at the weather bureau in Washington yesterday afternoon, beginning at 5 minutes and 22 seconds past seven p. m., seventy-fifth meridian time. Complete and perfect records were obtained of both the north and south and the east and west movements of the earth.

"The earth tremors at Washington were of comparatively slow and deliberate motion, each complete movement covering from 18 to 40 seconds of time. The earthquake lasted continuously for several hours, and finally ceased at about midnight. The most violent shock occurred at seven hours, forty-two minutes, twenty-six seconds, p. m.

"From press reports this is evidently a record of the great Chilian earthquake of August 16, and is the heaviest recorded in Washington since the San Francisco earthquake."

SPEECH BY SECRETARY ROOT.

Guest of Honor at Reception Given by North American Society.

BUENOS AYRES, Argentina, Aug. 16.—(Delayed in transmission).—Secretary Root today visited Estancia and other places, accompanied by President Alcorta, the cabinet ministers and the diplomatic corps.

This evening the Secretary was present at a reception given in his honor by the North American Society of the River Plate in Prince George Hall, which was attended by the leading English-speaking people and prominent Argentine citizens, upwards of 1,500 persons being present. After an address of welcome in behalf of the American citizens had been delivered by President Purdie of the society, Mr. Root spoke on the great prospects for the future development of the country by the investment of American capital. He pointed out that since the time 20 years ago, when the late Secretary Blaine founded the bureau of South American republics, the conditions had greatly changed. The United States from a debtor nation, which had been compelled to borrow money to build its railways, has in a comparatively short time become a creditor nation, with a large surplus capital ready and available for disposal to help other countries attain the same position. Argentina is a country with great potentialities, offering security, protection and a remunerative return for foreign capital, by whose aid it would be enabled to pay its debts, and like its sister republic, the United States, develop its rich resources and also become a creditor nation and help on the smaller Latin states.

No Serious Effects from Earthquake.

LONDON, Aug. 17.—A despatch to the Reuter Telegram Company from Buenos Ayres says that a telegram from Mendoza, capital of the Argentine province of that name, states that the earthquake shock felt there last night did not result in any serious consequences.

BY ACTIVITY OF REVOLUTIONISTS.

Government Being Forced Towards Repression.

Three More Members of Parliament Arrested.

ST. PETERSBURG, Aug. 17.—The activity of the terrorists and revolutionists and lack of the support of the public are steadily forcing the government in the direction of repression.

The events in Poland have given a new impetus to the talk of a military dictatorship, which, according to the Comrade, is one of the subjects for consideration enumerated in the call for a meeting received by the members of the military council yesterday. The authority of the Comrade, however, is not above question.

The prevalence of agrarian strikes and disorders has impelled Premier Stolypin to send another circular to the provincial authorities, directing them to spare no efforts to suppress them. M. Stolypin recommends the adoption of measures to ascertain the identity of the disturbers, who are to be arrested and dealt with administratively.

The members of the Social Revolutionary party's "armed legion," arrested in St. Petersburg and Moscow, will be banished to remote parts of Siberia.

Constant discoveries of laboratories for the manufacture of explosives and stores of bombs are chronicled, and the arrests of three more members of the outlawed Parliament, Mm. Ramishvili, Soffer and Volkoff, are reported. M. Ramishvili is a social revolutionist from the Caucasus, and was a picturesque feature in the lower house. M. Soffer was arrested at Kishineff, on the ground that incriminating documents were found during the search of his house. M. Volkoff was arrested at Smolensk, and later was released on the demand of his peasant constituents.

The commission which has been examining the budget with the view of securing the money needed for famine relief has succeeded in raising a fund of $10,000,000, half of which will be taken from the army budget and the remainder from various appropriations.

Advices received by the minister of the interior from Warsaw place the casualties in the encounters there during the night of August 15 at 19 civilians killed and 20 wounded.

DARING ESCAPE FROM TRAIN.

Leader of Band Which Robbed Moscow Bank of $437,500.

ST. PETERSBURG, Aug. 17.—Beleneoff, the leader of the band which pillaged the Credit Mutual Bank of Moscow, securing 437,500, has daringly escaped while on his way to Moscow from Switzerland, whence he had been extradited. He was on board a train heavily guarded, and when near Pskov dove through the glass of a window, gained the forest and eluded pursuit.

It is announced that 200 members of the militant section of the Social Revolutionists were arrested in St. Petersburg and Moscow during the last three days.

Beleneoff left Warsaw on a special car attached to a fast train, in charge of a captain of gendarmerie, four gendarmes and six soldiers. Suddenly as the train slackened speed at an up grade Beleneoff sprang through the glass of a window, rolled down the embankment and disappeared in the woods. The train was stopped, and the guards followed Beleneoff's bloody trail for some distance, but finally it was lost in a swamp.

Extraordinary precaution had been taken through Poland, owing to fear of a forcible rescue of Beleneoff. The platforms at all the places where the train stopped were cleared.

Beleneoff's attorneys fought his extradition, on the ground that a bank robbery in Russia was a political crime, and were granted a stay of several weeks by the Swiss courts, so as to enable them to produce evidence to support their claim.

CITY ILLUMINATED FOUR DAYS.

Great Rejoicing in Teheran Over Return of Expelled Mullahs.

ST. PETERSBURG, Aug. 17.—A despatch from Teheran, Persia, today says that the return of the expelled Mullahs was made the occasion for great ceremony, the city being illuminated in their honor for four days. Crowds of people greeted them at a gate of the city, the Russian colony participating in the demonstration. The disturbances have ceased. The health of the Shah is reported to be worse than for some time past.

W. B. REDUSO MODELS
For Stout Women.

A corset-boon for stout women—the ideal garment for over-developed figures requiring special restraint. It not alone restrains the tendency to over-fleshiness, but it molds the over-developed proportions into those pleasing, graceful outlines, hitherto thought to be attainable only by slighter figures. A particular feature of this model is the apron over the abdomen and hips, boned in such a manner as to give the wearer absolute freedom of movement. The corset is cut low under the arms. The material is a durable imported contil, woven especially with a view to strength. Strong hose supporters at hips and sides. Sizes 24 to 36.

Price $3.

Ladies' Undervests
—AT A—
Special Bargain Price.

36 dozen real Lisle Mercerized Vests, which were bought earlier in the season to sell at 37 1-2c., but owing to the late arrival of them we shall offer them now at

This Morning's News.

CANNON DEFIES GOMPERS.

Says He Will Continue War on Certain Labor Legislation.

DANVILLE, Ill., Aug. 16.—Spirited defiance to Samuel Gompers, president of the American Federation of Labor, marked the address of Speaker Cannon today, in which he accepted at the hands of the Republicans of the Eighteenth Illinois Congressional District his seventeenth re-nomination for Congress. The speaker was one of those marked by Mr. Gompers for defeat because of his opposition to legislation sought by the American Federation.

Speaker Cannon was given a stirring reception when he appeared on the floor of the convention. Despite his protests, the delegates insisted upon launching a boom for the presidency for their favorite son. The Speaker was visibly embarrassed, as he had not intended that his Presidential aspirations should become formally known in such fashion.

The address is regarded as being the "keynote" speech of the coming campaign. In paying his respects to Mr. Gompers, the veteran did not mince words. Referring to the effort of the American Federation to obtain legislation wresting from the courts the power of injunction, he said:

"The legislation that Mr. Gompers

Speaker Cannon.

demands would turn loose in times of trouble the criminally disposed. In charity for him, I do not believe he realizes the consequences that would result from that which he advocates and in justice to all the citizenship of the republic, in justice to every man who lives in the sweat of his face by honest endeavor, I am now, and will be at all times, opposed to this legislation which he demands."

The convention unanimously endorsed Mr. Cannon for President of the United States. The resolution was adopted amidst the greatest enthusiasm. Mr. Cannon said:

"The resolution which you have just adopted, coming as it does from those whom I have represented in the National House of Representatives for over 20 years, touches me profoundly. I would not exchange your confidence for the gratification of any ambition I might have.

"In politics, as well as in other matters, it is best not to cross a stream until you come to it. The first stream to cross is in November next, and it is necessary that we should be successful in crossing it before we attempt to get over the river in 1908.

"It is too early to determine the personnel of the national ticket for the Presidential election. So far as the Republican party is concerned, it will no doubt, in convention assembled perform that duty wisely when the time comes, and whoever is chosen for leadership will surely receive the hearty support of those who believe in the policies of the Republican party of which I am an humble member.

"These policies are vital for the best interests and welfare of all the people. No man would refuse the nomination at the hands of a great party for the highest office in the republic but such a nomination is not to be had for the seeking."

WANTS SUPPORT OF DEMOCRATS

Moran Willing To Submit Relative Claims to Third Party.

BOSTON, Aug. 16.—District Attorney John B. Moran issued a statement today in regard to his candidacy for the governorship, in which he expressed his willingness to [illegible] claims for the Democratic nomination and those of Henry M. Whitney, submitted to William J. Bryan, to the three strongest and three weakest Democratic cities in Massachusetts outside of Boston, or the three weakest Democratic wards in Boston.

Mr. Moran has already received the backing of the Prohibition party, and he is desirous of securing the Democratic nomination. Mr. Whitney is the candidate of the Democratic leaders of the state. Mr. Moran's statement says that he bolted the nomination of Bryan in 1896, and he asserts that Mr. Whitney did likewise. The statement continues:

"I will agree with the Democratic leaders that Mr. Whitney's record and my own upon all matters shall be presented to Mr. Bryan, Mr. Whitney to refuse to become a candidate if Mr. Bryan declares against him; I to refrain from making any active campaign on the Democratic ticket if Mr. Bryan declares against me, my cause to be presented to Mr. Bryan by George Fred Williams, Mr. Whitney's cause to be presented to Mr. Bryan by Josiah Quincy.

"If Mr. Whitney refuses to allow Mr. Bryan to decide the matter, I am willing to have him and myself present our relative claims for the Democratic nomination to the three wards casting strongest Democratic votes in Boston, and three casting the weakest Democratic votes in Boston.

"If that is unsatisfactory to him, I will agree with him to present our relative claims to the Democratic voters in the three cities outside of Boston casting the strongest Democratic vote, and the three containing the smallest Democratic vote, he to retire from the contest in case the vote is against him. I on my part to refrain from actively making any contest on the Prohibition nomination if the result is against me.

"Of course I cannot withdraw from the Prohibition nomination. My name will be upon the ticket and of course I cannot prevent and will not attempt to prevent Prohibition orators or Republican orators advocating my election on the Prohibition nomination.

MORAN FLOUTED BY WHITNEY.

Offer to Settle Rival Claims for Governorship Declined.

BOSTON, Aug. 16.—District Attorney John B. Moran, Prohibition candidate for governor of Massachusetts and aspirant for the Democratic nomination for the same office, issued a proposal today to Henry M. Whitney that their rival claims for the nomination be left to William Jennings Bryan or to a test vote in wards or towns in which he designated. Within a few hours Mr. Whitney gave out a statement, declining to "treat" in any way with Mr. Moran's [illegible]ations. The feud thus will be [illegible] to the floor of the convention.

Henry M. Whitney issued a statement tonight, in which he declined to accept Mr. Moran's suggestion to refer the contest for the Democratic nomination for governor to Mr. Bryan. Mr. Whitney announced positively that he had decided to become a candidate for the nomination.

AUTHOR AND HISTORIAN.

Death of Rev. Dr. Richard Eddy at Gloucester, Mass.

GLOUCESTER, Mass., Aug. 16.—Rev. Dr. Richard Eddy, one of the most prominent Universalist clergymen in New England, and well known as an author and historian, died today at the summer home of his son, Benjamin F. Eddy. Uremic [illegible]ure, with which Mr. Eddy had been suffering for some time, was the cause of death.

Mr. Eddy was born at Providence, R. I., 71 years ago. During the Civil war he was chaplain of Company M, Sixteenth New York regiment. After the war he became pastor of the Independent Christian Church in this city, and from that charge he went to Chatham. He was an author of considerable reputation, most of his works being devoted to religious and historical subjects. Mr. Eddy retired from active life several years ago. He is survived by a widow and two sons.

TO FIGHT BUCKET SHOPS.

District Attorney Jerome to Invoke Aid of Dowling Law.

NEW YORK, Aug. 16.—District Attorney Jerome is to make a fight on bucket shops if the initial effort which was started today is successful. Mr. Jerome's contention is that bucket shop operators are common gamblers and the so-called Dowling law, which was [illegible] for the purpose of putting [illegible] out of business in this city, will be invoked to drive the bucket shop man to the wall.

The first step was taken today in the case of John A. Boardman & Co. of Philadelphia, whose branch offices in this city were raided by Detective Sergeant Barney McConville last week. District Attorney Jerome appeared before Magistrate Breen in the Centre Street police court and said that John Doe proceedings would be started against the four men who were arrested in the raids to find out if they were common gamblers.

Under the Dowling law a witness can be compelled to testify but gets immunity. Mr. Jerome intends to try to show through employes of the firm and its books that stocks were not dealt in and that it was a plain gambling proposition.

OHIO MAN WINS CONTEST.

R. B. Brown of Zanesville Made Commander-in-Chief of G. A. R.

MINNEAPOLIS, Minn., Aug. 16.—Commander-in-Chief—R. B. Brown, Zanesville, O.

Senior Vice Commander—William H. Armstrong, Indianapolis.

Junior Vice Commander—E. B. Fenton, Detroit.

Chaplain-in-Chief—Archbishop John Ireland, St. Paul.

Surgeon General—W. H. Johnson, Lincoln, Neb.

The foregoing officers were elected today at the annual meeting of the Grand Army of the Republic. All other officers are staff appointments and will be announced later by the new commander-in-chief.

The strongest opponents of Mr. Brown for commander-in-chief were C. G. Burton of Missouri and Captain T. R. Coney of Kansas. Both withdrew when it was seen that the election of Mr. Brown was a certainty. Brown has been chosen by acclamation.

TROUBLE TRIBAL NOT NATIONAL.

Serious Disturbances Between Greeks and Bulgarians.

LONDON, Aug. 16.—The reports received at the foreign office here fully confirm the seriousness of the trouble between the Greeks and Bulgarians, but the officials look upon the disturbances more as tribal than as national, the belief being that the Bulgarian government is making every effort to prevent clashes, though, thus far, without great success. "There is but one thing to stop these excesses," said an official of the foreign office today, "and that is a final settlement of the whole Macedonian question on which Great Britain is working incessantly. The prospects of success are now brighter than ever, as the powers are beginning to see that Great Britain's proposals for financial reforms are the only solution of the question."

Sir Edward Gray has just sent a note to the Porte, stating that the latter's last two notes with reference to three per cent increases in the customs duties were not acceptable. What Great Britain suggests is that before the powers agree to an increase in the customs they get assurances that Turkey will devote the revenue obtained from the increase to reforms in Macedonia.

NOT DUTY OF COMMISSION.

Report of Indictments Against Stuessel and Fock Denied.

ST. PETERSBURG, Aug. 16.—The Official Messenger today prints a denial of the recent announcement that the Ropp commission had returned indictments against Lieutenant General Stoessel, commander of the Russian forces at Port Arthur; Lieutenant General Fock, who commanded the fourth East Siberian division at Port Arthur, and others. The Official Messenger says it is the duty of the commission simply to present the results of its investigation upon which the indictments will be based. The denial is more technical than real, as the conclusions of the commission under the regulations necessitate indictments on the lines published.

DEATHS IN JULY.

Twenty Reported, the Smallest Number In Any One Month, With One Exception, In Five Years.

There were 20 deaths in Newport in July, according to the monthly report of the Board of Health, just published. This is the smallest number reported in any one month, with one exception, for five years, the exception being June, 1905, when only 17 deaths were reported. It is equivalent in a population of 30,000, the estimated summer population of Newport, to an annual rate of eight in each thousand inhabitants. The total number of deaths for the seven months of the year is 186, the smallest number in these months for many years, and equivalent to an annual rate of 12.78 in each thousand of a total population of 25,000.

The deaths were from 14 different causes, the largest number from any one cause being five from organic diseases of the heart; there were three from tubercle of the lungs, and one each from whooping cough, tubercle of the meninges, cancer of the stomach, cancer of the rectum, cerebral congestion and hemorrhage, diarrhoea and enteritis, hernia and intestinal obstructions, simple peritonitis, appendicitis, Bright's disease, senile debility, accidental submersion.

Of the 20 decedents 11 were males and 9 females, 19 were white and one colored, nine were single, seven married and four widowed.

The ages were as follows: Under one month, 1; one month and under one year, 2; one year and under five, 1; five years and under twenty, 2; twenty years and under forty, 3; forty years and under sixty, 2; sixty years and under eighty, 7; over 80 years, 2. The oldest was 96 years and the average age for the month was 44 years, 4 months and 16 days.

Of the decedents 11 were born in Newport, two in other parts of Rhode Island, two in other states and five in other countries.

The deaths occurred in the various parts of the city, as follows: First ward 4, Second 2, Third 4, Fourth 6, Fifth 3, Newport Hospital 1.

Five bodies were brought to Newport for burial and the interments were in the various cemeteries as follows: Island cemetery 5, St. Mary's 4, Common or Old 5, Braman 4, City 3, removed from the city 7.

Contagious diseases were reported to the Board of Health as follows: Diphtheria 1, scarlet fever 15, typhoid fever 2, total 18. The two cases of typhoid fever are put down as imported cases; that is they were brought to the city and did not originate here.

THE NEW POSTAL CARD.

The Postoffice Department is about to issue a new postal card. Designs for it have been passed upon by Third Assistant Postmaster General Madden, and the final selection of the design rests with Postmaster General Cortelyou. The new card will not be much different from the one now in use. It will have a medallion head of the late President McKinley and the usual inscription. The change will be in the style in which the latter is printed. The department wants something simple and more harmonious in character than the card now in use.

The postal authorities have decided that picture postal cards depicting lynching scenes are unmailable matter. The question was submitted to the department by James H. Ramsey, postmaster at Salisbury, N. C., whose office has been receiving many postals which bore photographs of the scenes attending the lynching of Gillespie and Dillingham, two negroes who were hanged by a mob last week.

PERSONALS.

....Paul Morton, president of the Equitable Life Assurance Society, probably will leave England on Saturday.

....Colonel Le Grand B. Cannon of New York, who has been seriously sick at Burlington, Vt., is pronounced out of danger.

....Sunday was the one hundred and third birthday of Mrs. Mary Scott of Philadelphia. She celebrated by going to church with her two sons and their wives in an automobile, going to Bible class afterward, and then going to the Deaconesses' Home for dinner and an informal reception.

....Among the flood of telegrams of condolence called out by the death of Mrs. Craigie from prominent people were many from America. Queen Alexandra Tuesday night telegraphed to Mrs. Craigie's mother: "I am much shocked and grieved by your poor daughter's death and offer you and Mr. Richards my warmest sympathy in your sorrow."

....Brigadier General Clarence R. Edwards, chief of the bureau of insular affairs, who is at Fort Bayard, New Mexico, undergoing treatment for an affection of the throat, is reported to be almost recovered, and will return to his duties at the War Department about November 1 if his improvement continues.

MENU FOR SATURDAY.

The woman that deliberates is lost.—[Addison.

Breakfast.
Apples.
Cereal and Cream.
Meat Balls.
Sliced Tomatoes.
Toast. Coffee.
Dinner.
Chicken Potpie.
Corn on Cob. String Beans.
Tomato Salad.
Coffee Jelly.
Coffee.
Supper.
Creamed Toast.
Lettuce. Milk Toast.
Chocolate Cake.
Tea.

Chicken Potpie—Have a fowl cut up as for fricassee; pare 10 medium-sized potatoes and cut them in halves; put a saucer in a kettle and lay half of the fowl round and over it; lay half of the potato over the fowl and season with salt and pepper; then make another layer of fowl and potato and seasoning; cook until the fowl is tender. For the crust sift two cupfuls of flour with two level teaspoonfuls of baking powder, rub in one-quarter of a cupful of butter and mix with ice cold water until it can be rolled out. When the fowl is tender lay the crust cut in strips two by four inches over the top; cover tightly and cook rapidly for 15 minutes without lifting the cover.

MENU FOR SUNDAY.

Be wise with speed; a fool at forty is a fool indeed.—[Young.

Breakfast.

A Fetching Little Bolero.

There is a perfect craze for those fetching little boleros. Fashioned from almost any material, or combination of materials, their uses are legion and their number in proportion. Whether constructed from new materials, or deftly pieced together from silks, ribbons or laces that have done duty aforetime, the effect aimed at is the same. A clever suggestion is given in the one that is pictured herewith. In this instance Chantilly lace of a well-defined pattern is joined with black velvet ribbons, the whole making a bolero that ends ere the waistline is reached, and boasts a sleeve of equally abbreviated length, but of a satisfactory fulness.

The ribbon is not cut into lengths, as is the lace, but is deftly twisted so that it forms a panel effect at the lower edge, the satin back showing at this point and affording a pretty contrast and relief. The entire little garment—if one may term it such—is edged with a very fine and sheer Chantilly edge, this ruffled to a scant fulness. It is almost needless to point out that all of the construction is wrought by hand throughout, the fine lace not lending itself well to the stiffness of machine sewing.

A LITTLE WHILE AGO.

[Washington Star.]

There comes a song in summer days,
A low and tremulous refrain;
'Tis murmured in the leafy ways
And in the dropping of the rain.
It tells of pleasures all complete,
The joys which only youth may know,
And swings into this burden sweet,
"'Twas such a little while ago."

Each weed bloomed delicately fair,
And life was only made for song,
The world was filled with treasures rare
That waited for the brave and strong—
And all are brave when love is young,
And all are strong in hope's first glow;
How stoutly was the challenge flung
To fate, a little while ago.

And what so e'er the years may bring—
So sing the zephyr and the rain—
The poppies left all withering
Are dearer than the garnered grain.
Though toil and care through field or mart
Plod on forgetfully and slow,
Youth's sweetness lingers near the heart
And seems a little while ago.

FANCIES.

What was the cause of your uncle's death?

We never knew. He had three doctors and each blamed it on the other.—[Brooklyn Life.

"Hello, old man, and how do you enjoy married life, eh? Ever have any difference of opinion with your wife?"

"Yes, but I don't let her know about them."—[Boston Transcript.

School Examiner—What is the meaning of false doctrine?

Schoolboy—Please, sir, it's when the doctor gives the wrong stuff to the people who are sick.—[Christian Register.

Askit—Isn't that a new umbrella?

Nolit—No; it has been in my possession for nearly two years.

Askit—Don't you think it about time you returned it?—[Chicago News.

Teacher—How many kinds of poetry are there?

Pupil—Three.

Teacher—What are they?

Pupil—Lyric, dramatic, and epidemic.—[Cleveland Leader.

Customer—Yes, I like this suit. I suppose you will make any alterations I may require free?

Tailor—Oh, yes, sir; certainly.

Customer—Very well, then; just alter the price from $25 to $16 and you can do it up.—[Boston Transcript.

Some years ago when bicycling was more popular than it is today, Bishop Donahue of Wheeling, W. Va., essayed to learn to ride. He had the usual experience of a novice. Some days later a friend, who had seen the Bishop performing feats on a wheel, added:

"Bishop, do you wheel now?"

"Certainly," replied the dignitary, "I am Bishop of Wheeling."—[Excange.

"Mornin', Congressman; I"—

"Well, it's old Jim Smith. Jim, how are you? Have a cigar, Jim."

"Thought I'd come around to tell you that I'd moved out of your district, but"—

"Indeed, Mr. Smith."

"You see, I wanted to find out if"—

"Yes, Smith."

"If you could use your influence to"—

"Sorry, my man, but I can't stop. Good morning."—[Puck.

NEW 90-FOOTERS TO BE BUILT.

Two Boats Ordered to Race Against the Queen and Elmina—Preparing for Next Season.

[New York Sun.]

There will be fine racing in the 90-foot class of schooners next season. Two new schooners have been ordered and are to be built this winter to race against the Queen and the Elmina. One is for C. Oliver Iselin, who has managed so many cup defenders, and the other is for his brother, William E. Iselin, who now owns the Vigilant. C. Oliver Iselin has gone to Herreshoff for his yacht, and it is safe to say that the new Herreshoff schooner will be faster than the Queen. The other schooner has been designed by A. Cary Smith, who designed the Elmina, and Mr. Smith in his designs has taken every advantage of the new rule. Some say there will have to be a change this winter or the building of new yachts will be hurt very much.

The Cary Smith schooner is to be 7 feet longer on the water line than the Queen, making 97 feet. She will display about 20 tons more and will spread about 3,000 square feet more or between 12,000 and 13,000 square feet altogether. She will rate just the same as the Queen, and with her extra length and extra sail she should be a much faster boat.

Another new schooner is to be built for E. R. Coleman, owner of the Hildegarde. This boat is being designed by A. S. Chesebrough, and will be 120 feet long and rigged with three masts. Other boats for this class are being talked of.

EXCURSION TO ROCKY POINT.

Canonchet Lodge of Odd Fellows made an excursion to Rocky Point last night on steamer City of Newport. Before the boat left the lodge, headed by the Newport Military Band, made a street parade to the wharf, and the band accompanied the excursion, furnishing music on the trip. There were many friends of the organization on the boat, when she left the dock, and some who would have been there had they arrived in time waved good by to the crowd as the boat passed up the harbor.

Administrators and executors are privileged to select the newspaper in which shall be printed notices connected with the settlement of estates. The Newport Daily News offers every possible advantage for such advertising to the people in the towns of Newport county.

STATE OF RHODE ISLAND,
NEWPORT Sc.

BY VIRTUE and pursuant to a decree of the Court of Probate of the City of Newport, made and entered on the 5th day of July, A. D. 1906, the undersigned, as administrators upon the estate of Albert A. Wilbur, late of said Newport, deceased, will sell at public auction on the 22d August, A. D. 1906, at twelve o'clock noon, upon the premises hereinafter described, all the right, title and interest which the said Albert A. Wilbur, deceased, had at the time of his decease, in and to the lots or parcels of land together with all the buildings thereon, situate in said City of Newport and in the Town of Middletown, and bounded and described as follows:—

All those certain parcels of land situate in the City of Newport in the County of Newport and State of Rhode Island, together with all the buildings and improvements thereon and bounded and described as follows:—

First Parcel:—Bounded, Northerly, on Bliss Road, three hundred and twenty two feet; Easterly, on the parcel of land next hereinafter described, nine hundred and eighty-eight (988) feet; Southerly, partly on land of the Gibbs Land Company and partly on land of Robert S. Watson, one hundred and twelve (112) feet; and Westerly, partly on land of Laura Waring, partly on land of Nettie E. Bullock, partly on other land of Laura Waring, partly on land of Julia E. Lavery and partly on other land of said Laura Waring, nine hundred and fifty-eight (958) feet, containing two hundred and ten thousand four hundred and seventy-seven (210,477) square feet of land—be said measurements more or less or however otherwise the same may be bounded and described.

Second Parcel:—Bounded, Northerly, on Bliss Road, two hundred and sixty-seven (267) feet, Easterly, on the parcel of land next hereinafter described, nine hundred and eighty-seven (987) feet; Southerly on land of the Gibbs Land Company, two hundred and fifty (250) feet; and Westerly, on the parcel of land next hereinbefore described, nine hundred and eighty-eight (988) feet; containing two hundred and fifty-one thousand four hundred and fifty-five (251,455) square feet of land; be said measurements more or less, or however otherwise the same may be bounded and described, excepting however the family burying ground thereon situate and reserving also all the rights appurtenant thereto.

Third Parcel:—Bounded, Northerly, on Bliss Road, three hundred and forty-three feet; Easterly, on the parcel of land next hereinafter described, nine hundred and ninety-three (993) feet; Southerly, on land of the Gibbs Land Company, two hundred and sixty-two (262) feet; and Westerly on the parcel of land next hereinbefore described, nine hundred and eighty-seven (987) feet; containing in all two hundred and ninety-eight thousand six hundred and twenty-eight (298,628) square feet of land; be said measurements more or less or however otherwise the same may be bounded or described.

Fourth Parcel: Including a large parcel and small triangular parcel; the larger parcel being bounded Northerly on Bliss Road, three hundred and forty-three (343) feet; Easterly on land of Emma G. Hazard, fourteen hundred (1400) feet; Southerly, on the Boulevard, forty (40) feet, thence turning and running northerly three hundred and eighty (380) feet; bounded Westerly on land of the Gibbs Land Company; thence turning and running westerly bounded Southerly on land of said Gibbs Land Company, one hundred and fifty-two (152) feet; and Westerly by the land next hereinbefore described, nine hundred and ninety-three (993) feet containing three hundred and sixty-three thousand eight hundred (363,800) square feet of land; the triangular parcel being bounded: Northerly, on the Boulevard, twenty-eight (28) feet; Easterly on land of Emma G. Hazard, one hundred and sixty-three (163) feet and westerly on land of the said Gibbs Land Company, one hundred and fifty-seven (157) feet; be any of said measurements more or less or however otherwise the same may be bounded and described.

Fifth Parcel: Bounded Northerly, on land of Betsey C. Wilbur, two hundred and thirty (230) feet; Easterly on the Boulevard running north, two hundred and ten (210) feet; Southerly on the Boulevard running east two hundred and forty (240) feet; and Westerly on other land of Betsey C. Wilbur, two hundred and seventy-five (275) feet; containing sixty-five thousand, eight hundred and fifty-three (65,853) square feet of land; be said measurements more or less or however otherwise the same may be bounded and described.

Sixth Parcel: Bounded, Northerly, on the Boulevard running east two hundred and sixty (260) feet; Easterly, on the Boulevard running south three hundred (300) feet, Southerly on the parcel of land next hereinafter described, two hundred and fifty (250) feet and Westerly on land of Betsey C. Wilbur, two hundred and thirty-two (232) feet; containing seventy-one thousand five hundred and eighty (71,580) square feet of land, be said measurements more or less or however otherwise the same may be bounded and described.

Seventh Parcel: Bounded Northerly, on the parcel of land next hereinbefore described, two hundred and fifty (250) feet; Easterly, on the Boulevard running south, two hundred eighty-six and thirty-three one hundredths (286.33) feet; Southerly, on the parcel of land next hereinafter described, two hundred and fifty (250) feet; and Westerly on land of Betsey C. Wilbur two hundred and eighty-six and thirty-three one hundredths (286.33) feet, containing seventy-one thousand five hundred and eighty (71,580) square feet of land—be said measurements more or less or however otherwise the same may be bounded or described.

Eighth Parcel: Northerly, on the parcel of land next hereinbefore described two hundred and fifty (250) feet; Easterly on the Boulevard running south two hundred and seventy-eight and seventy-eight one hundredths (278.78) feet; Southerly, on Water Works Street, two hundred fifty and four tenths (250.4) feet; and Westerly on land of Betsey C. Wilbur two hundred and ninety-four (294) feet; containing seventy-one thousand five hundred and eighty (71,580) square feet of land; be said measurements more or less or however otherwise bounded and described.

Ninth Parcel: Bounded, Southerly on Water Works Street one hundred and sixty-five (165) feet; Westerly on the Boulevard running south, four hundred twenty-eight and three tenths (428.3) feet; Northerly, on the parcel of land next hereinafter described, one hundred and seventy (170) feet, and Easterly on land formerly of Philip Caswell four hundred thirty-two and seven tenths (432.7) feet containing seventy-one thousand eight hundred and seventeen (71,817) square feet of land; be said measurements more or less or however otherwise the same may be bounded or described.

Tenth Parcel: Bounded, Southerly on the parcel of land next hereinbefore described, one hundred and seventy (170) feet; Easterly on the Boulevard running south, two hundred and ninety-six (296) feet; Northerly, on the parcel of land next hereinafter described, four hundred and fifteen (415) feet; Easterly on Bliss Mine Road, ninety-nine and thirty-eight one hundredths (99.38) feet; thence turning and running westerly from said Bliss Mine Road bounded Southerly on said land now or formerly of Philip Caswell, two hundred and forty-eight (248) feet; thence turning and running southerly bounded Easterly on said Caswell land one hundred seventy-nine four tenths (179.4) feet; containing seventy-one thousand, eight hundred and seventeen (71,817) square feet of land be said measurements more or less, or however otherwise the same may be bounded or described.

Eleventh Parcel: Bounded Southerly, on the parcel of land next hereinbefore described, four hundred and fifteen (415) feet; Westerly, on the Boulevard running south, one hundred seventy-one and forty-eight one hundredths (171.48) feet; Northerly on land of the heirs or devisees of Emma G. Hazard, four hundred and eighteen (418) feet, and Easterly on Bliss Mine Road, one hundred seventy-one and forty-eight one hundredths (171.48) feet; be said measurements more or less or however otherwise the same may be bounded or described.

Twelfth Parcel: All that certain parcel of land situate partly in said City of Newport and partly in the Town of Middletown in said county bounded, Westerly on the Boulevard running North four hundred and sixty-three (463) feet; Northerly on land of the heirs or devisees of Emma G. Hazard, three hundred and twenty-seven (327) feet; Easterly on Bliss Mine Road, one hundred and thirteen (113) feet; thence turning and running westerly bounded Southerly on land of H. B. Rogers two hundred fifty-six and five tenths (256.5) feet; thence turning and running southerly, bounded Easterly, on said land of H. B. Rogers, three hundred sixty-eight and four tenths (368.4) feet and Southerly on land of Emma G. Hazard, ninety-five (95) feet—be said measurements more or less, or however otherwise the same may be bounded or described.

A plat of which said premises can be found at the Newport National Bank, Savings Bank of Newport, Newport Trust Company, and National Exchange Bank.

TEN PAGES.

WHAT GOLD COSTS.

No mistake is greater than that of supposing the gold output to be a net addition to the wealth of the world. It costs a great deal to produce gold. In the old days of placer mining the cost was small, and the profits large where gold was found in paying quantities, but think of the amount of money and labor spent in the search for gold where it was absent, or present only in quantities which did not replace the cost of getting it!

Nearly all gold production now involves large investments of capital and this capital is often sunk without return. The amount of wealth destroyed, or in other words consumed, in seeking and securing gold bears a high ratio to the amount of the product. There are no statistics, but any one who watches the career of mining companies can form some idea of the number of them which spend the money of the shareholders in digging holes in the ground, at the bottom of which nothing is found.

It is pretty generally estimated that it costs $5,000,000 to bring a deep-level South African mine to the producing stage. Eight companies discussed by a Johannesburg paper have spent $35,000,000 in getting to the producing point, and "four of these are outcrop propositions and therefore do not incur the expenditure of sinking deep vertical shafts."

The precious metals which the Spanish discoverers sent back to Spain represented a very great profit. They were obtained cheaply by the simple and inexpensive process of robbery, and represented a large addition to the wealth of the civilized or commercial world. The gold of California and Australia was produced at comparatively small expense. A single miner with a pick and a washing outfit made by himself could "clean up" the precious metal in its powdered form. But vast amounts were expended in the fruitless search for gold, and the value of the great gold finds, ancient and modern, in stimulating industry and giving the world prosperity have been greatly exaggerated. Gold and silver supply convenient means of exchange, but they are not the only ones, and there has been plenty of commerce and it has been profitable with limited supplies of the metals used for coinage. Prosperity does not rise and fall with the output of the Rand mines.

POETRY ON THE FARM.

Little by little the poetry is being taken out of farming and plain prose is taking its place. Perhaps most farmers have never seen much poetry in their occupation, but the poets have given the people glimpses of it in their writings, and of course they are expected to know more about it than the farmers themselves, because they have the poetic vision while the farmers look upon the incidents of their calling with a plain and prosy view. But even the poets would have some difficulty in finding the poetic side of farming in these days and their poetic vision and the prosy view of the farmer would be nearer alike than they used to be, for many of the occupations on the farm in which the poets delighted to revel in imagination have been changed and could no longer even by a far stretch of a vivid imagination be considered poetical but extremely prosaical.

Maud Muller raking hay long ago disappeared and the unpoetical horse or steam rake took her place, the man with the hoe was driven out by the cultivator, while the farmer with his flail went into inactivity and almost into oblivion with the appearance of the steam thresher. In like manner have gone many of the features of farm life about which the poets liked to write and which to their readers made life on the farm thoroughly idyllic, with little or nothing of drudgery. Now comes the mechanical cow milker, and with its approach will disappear still another familiar scene from the pages of the poets, that of the milkmaid at her pleasant task of drawing the lacteal fluid from the plucid animal standing meekly at her side.

Really the poets will have little left to picture in their poems on life on the farm if the inventors continue their destructive work. Every new invention knocks one more prop from beneath the poet and his description of the joys and delights of the farmer and his family, and soon there will be nothing left to be described but the plain, prosaic figures of the farmer in overall and jumper feeding the pigs, the farmer's wife in calico wrapper washing the dishes, and the farmer's daughter in curl papers and ill-fitting gown sweeping the house. This cruel wild upon the poets and their imaginative pictures of life on the farm ought to be stopped or the writers of beautiful lines of verse will lose entirely one favorite theme.

This new machine for milking cows demands a word for itself. What a difference between this mechanical device and the hand of man or milkmaid! How dull and devoid of interest becomes this erstwhile diverting occupation, when the inventor steps in and drives away the farmer or his daughter and substitutes a sort of pump to do the work! What an inspiring theme for the poet or subject for the painter the new machine would furnish! But this is the age of progress and the invention of labor-saving devices must be fostered. It does seem a pity, though, that some of the old familiar and interesting things must give way before the advance of the inventor, and it is too bad to spoil the picture of the poet, so long told in verse and rhyme, of the joys and the picturesque scenes of life on the farm.

THE NEW YORK SITUATION.

The Odell and Platt combination, having won a victory over the Higgins faction in the New York Republican executive committee by the narrow margin of one vote, are now talking as if they believed Higgins is hopelessly beaten and must withdraw. The Odell men, in spite of their victory, are talking of a compromise, saying that ex-Governor Odell will retire from the chairmanship of the state committee provided the Higgins men will consent to accept Charles E. Hughes as the Republican candidate for governor without a fight, and provided further that the new state chairman is the sort of man who will not wage war on the present state chairman or his friends. The Odell men are for Hughes, not because they love him more but because they love Higgins less. The Higgins men are yet to be heard from.

A "SCAB" BANK.

Chicago's nocturnal bank is a "scab" and the banks which belong to the financial labor union will not work with it. The clearing house committee has refused clearing privileges to the new concern, because it does not conform to the rules of the association in the matter of hours for business. The bankers' union, called the clearing house, fixes the hours of business at from 10 to 3, except on Saturdays and except as to savings banks. A bank which works over-hours cannot have the clearing house privileges. This is by no means the only labor union rule which is enforced by financial organizations. The New York Stock Exchange imposes heavy penalties upon brokers who split commissions, or in other words work for less than the union rate of wages.

The summer residents of Stockbridge, Mass., are protesting against the large taxes they pay, saying that they are not receiving a fair proportion of the town's money in the improvement of roads. Some one has said that unless the Stockbridge town officers comply with their request for better roads a petition will probably be presented to the next legislature asking that a section of Stockbridge be set off and annexed to Lenox. This has a somewhat familiar sound.

Roger Sullivan of Illinois is, or was, president of the Ogden Gas Company, which was organized to compete with the existing gas concern and give Chicago cheaper gas. Bryan regards this as a connection with the corporations which should exclude Sullivan from the Democratic national committee and all influence in the Democratic party. One can see from this what would be the attitude of a Bryan national administration toward all business enterprises bigger than peanut stands.

Another German fire insurance company repudiates obligations of about $2,000,000 in San Francisco, and it does not even have an earthquake clause in its policies as a pretext. It simply finds it inconvenient to pay. Some remarks from German newspapers on the low tone of commercial morality in the United States are now in order.

Russian officials have no confidence in Persian political reforms, and say that "as soon as either party is firmly in power it is apt to jettison any and all legislative restrictions of absolute power." It may be so, but this sounds a good deal like the pot calling the kettle black.

The teamsters who have separated from the International Brotherhood call themselves the United Teamsters. The name does not seem to fit the case exactly.

Fusion has won in Nebraska. "Harmony for Bryan's sake" was the cry which brought the Democratic convention to accept a combination with the Populists.

The effect of the agrarian troubles in Russia is shown in the announcement that for the first time that country has been obliged to import grain.

The boom of the Cannon was heard yesterday in Illinois.

Every one ought to enjoy this weather.

CARE OF STREETS.

That disease germs are widely scattered by the dust clouds which motor cars place in motion is now recognized by the highest medical authorities, as also that the dust thus circulated is one of the causes of consumption and other diseases of the throat and lungs. A motor commission has been holding meetings in London, discussing this subject, and it is expected that its report will contain comprehensive suggestions on the use of motor cars and the convenience, health and safety of all who use the highways. Dust raising is a nuisance of such magnitude that various civic and official anti-dust experiments have been made abroad as well as in the United States, and, while the problem has not been fully solved by them, a great deal has been accomplished toward that end.

In Liverpool satisfactory results have been obtained by the use of oil sprinkled on macadam roadways. The surface having the whitest and cleanest appearance was that coated with creosote oil mixed with rosin, while that coated with creosote oil mixed with tallow had the least odor. The surface covered with ordinary petroleum gave the most lasting results, and portions of the road heavily coated with this oil showed a somewhat glazed surface formed of oil and dust. So far as wear and tear of the road surface is concerned, the oiling, on the whole, has proved advantageous. The wear appears to be less, the surface of the road dries more quickly after rain and the number of loose stones picked up has been reduced. The first sprinkling kept the road in good order for three weeks, at the end of which time it was thought advisable to recover the area. The good effects of the oil after this second coating had not entirely disappeared after the lapse of five weeks.

The cost of the applications varied from one-half cent to one cent a superficial yard. Some complaint was made about the smell of the oil, especially the creosote, but against this it was declared that as long as the odor remained flies practically disappeared from premises adjoining the road. Oiling wood pavements in Liverpool was done in the same manner, and the dust satisfactorily kept down, a result not previously obtained even by watering four time a day, and the surface of the road was kept in good condition during dry weather without the use of gravel. The roadway became somewhat slippery during a rainfall, and to avoid this it was found necessary to sprinkle a little gravel on it.

THE TROLLEY TRANSFER.

(Boston Transcript.)

Of course the purchasers of the New Haven trolley interests are not in any sense antagonistic to that corporation. If they had been President Mellen doubtless would have tested in the courts its contention that the Massachusetts trolley lines controlled by the Consolidated Railway Company had been operated in conformity with the Massachusetts laws. That there will be no destructive competition under the new arrangement may be accepted as assured. On the other hand, it is probable that the trolleys and the steam lines will be operated under some form of "gentlemen's agreement," leaving the Consolidated Railway Company free to pursue its original policy of absorbing and consolidating local street railways into larger systems.

It is presumable that in taking this action the New Haven management wishes to place itself in a position where it will be freer from interference, either by the Massachusetts legislature or the courts. It is understood that the New Haven will now be able to declare that as a corporation it does not own any street railways. Its ample resources, however, are likely to be largely at the disposal of the holding company in making necessary extensions, for in the new voluntary association there no doubt will be men who are financially interested in both forms of transportation. The plan is promising of advantages to the public for Massachusetts already has examples before it of public benefits which have accrued from consolidation of local street railways. The Massachusetts Electric Companies have given the people of eastern New England a better service and lower rates than would have been possible before the lines composing the Boston & Northern and the Old Colony street railways were brought into these systems.

NERVE KILLING NOISE.

(Boston Transcript.)

The anti-noise crusade is making headway. Several cities have passed ordinances against the use by automobilists of siren horns. A more needed reform is reported today from Jamaica, N. Y., where a magistrate heard a complaint against the practice of waking the railroad employes resident in the community by blowing the whistles of the all-night drill engines at an unearthly hour in the morning. On the promise of the defendant to discontinue the practice the case was adjourned.

A similar nuisance has been an occasion of complaint in factory towns in the South, where the whistle is blown at four o'clock every morning to arouse the mill hands. In Washington people have complained to the district authorities, with varying success, against the loud calls of hucksters in the residential sections of the city, crying their wares at unreasonable hours. Especially in the larger cities is there room for great improvement in the reduction of unnecessary noises with their terrible wear on poor human nerves.

FOR RENT.
COTTAGE on the CLIFFS.

The house is to be sub-let, owing to the tenant's CHANGE OF PLANS.

AROUND RHODE ISLAND.

Appointment of the Democratic Campaign Committee.

Annual Reunion of the Reynolds Family—Outcome of the Union Band Episode.

In obedience to the direction contained in a vote of the Democratic state central committee at its last meeting, Judge Frank E. Fitzsimmons, chairman, has appointed the following to serve with the chairman as a campaign committee: Colonel P. H. Quinn of Warwick, Congressman Daniel L. D. Granger of Providence, Edward M. Sullivan of Cranston, ex-Senator Richard B. Comstock of Providence, John J. Fitzgerald of Pawtucket, Mayor Adelard Archambault of Woonsocket, Lewis Brown of Newport and Edmund Walker of South Kingstown. This committee will act in conjunction with the executive committee of the Democratic state central committee, and Colonel Peter J. Gaskin of Cumberland will serve as secretary of the committee.

Yesterday was the occasion of the fifteenth annual reunion of the Reynolds Family Association, and a party of between 75 and 100 members of the family from various sections of Rhode Island and other states enjoyed the celebration at Wickford. The festivities began at an early hour, when a reception was given, which lasted throughout the forenoon. Following the reception the annual business meeting was held, after which came the dinner, which took the form of an old-fashioned Rhode Island clambake, "Wickford style." Following this function came a number of interesting addresses appropriate to the occasion. Among the speakers were Judge George G. Reynolds of Brooklyn, N. Y., Judge O. L. Bosworth of Bristol, William N. Reynolds of Luzerne, Pa., H. C. Reynolds of Scranton, Pa., and Rev. Frederick B. Cole of Wickford. The reunion terminated with a trip by special cars to the old Reynolds family burial ground, where the oldest members of the family, numbering some of the first settlers at Wickford, are buried. The Reynolds family has always been prolific in southern New England, especially in the vicinity of Wickford.

An attempt at emulation of the feats of professional aeronauts and parachute droppers proved fatal to Arlo Weyman, a Riverside youth, late yesterday afternoon. He made a leap from the top of the 60-foot high coal shutes at the Riverside dock with a crudely constructed parachute. The apparatus failed to operate properly and young Weyman plunged into the water with great force. But for the coolness of a companion, Leon Sweet, who went to the rescue, Weyman would have drowned. Weyman's breath was crushed out of his lungs by the force of his collision with the water, and in attempting to regain it he swallowed a considerable amount of sea water. While his condition last evening was not considered serious, it is not believed that Weyman intends to make another leap after yesterday's feat for a considerable time.

Damage suits against union bands which left the parade of the Veteran Firemen in Providence yesterday, and a levy of $1,500 in fines against the 90 members of the American Band who refused to quit the line, may result from the episode which for a time threatened to seriously interfere with this feature of the muster celebration. President John H. Barber of the New England Veteran Firemen's League said last evening that he should advise the Volunteers of Central Falls, of which he is foreman, to bring legal action against Fay's Second Regiment Band. Similar action is possible on the part of the Hay Carts of Pawtucket against the Pawtucket City Band, and the Nameaugs of New London against the Hedley-Livesey Band of Providence. On the other hand, the American Band, which disregarded the order to leave its position at the head of the line, and thereby prevented the parade from presenting an unbecoming spectacle as it approached the waiting crowds, is to be disciplined for its action. Officers and members of the Musicians' Union, who attached paramount importance to the principle of the thing, characterize the American Band's action in strong terms. There is talk of calling a special meeting of the union for next Wednesday, and of imposing the fine of $50, provided in the by-laws for such cases, upon each of the 30 musicians who turned out with the American Band yesterday. The total of the fines thus imposed would be $1,500. According to the statement of members of the union, failure to pay a fine of this character is punishable with suspension, which bars the musician from playing in any union engagement.

By the spilling of molten metal on his face yesterday afternoon, while about his employment in the Howard & Bullough machine shop, Pawtucket, Frank Smith, aged 21 years, of Central Falls had both eyes so terribly burned that it is doubtful if he will be able to see again. The young man had been left alone for a few moments by his fellow workmen, who were attending to some other part of the work, and they were startled by hearing agonized cries coming from the direction of Smith. The men rushed to his assistance and discovered the young man writhing in pain on the floor, with his face horribly burned around the eyes. He was hastily taken to the office of Dr. Gardiner in Pawtucket, and after being attended there he was taken to the Rhode Island Hospital on the advice of Dr. Gardiner. One eye was burned completely out and the other one so severely injured by the molten metal that the hospital authorities last night could give little encouragement to the young man's relatives.

The playing record of the New England States Veteran Firemen's League was thrice broken at the sixteenth annual muster held in Providence yesterday afternoon. Two of the four water prizes and the one special prize remain in this state. As though this was not glory enough for Rhode Island, everybody conceded that it was without exception the finest, best conducted and most successful muster that the league has ever held.

PERNICIOUS EFFECT OF HEADACHE POWDERS.

[World's Work.]

The use of patent powders for headache, sleeplessness, nervous exhaustion, and similar difficulties has enormously increased within the last few years. Taken in small doses and at rare intervals these much advertised remedies do not seem to be injurious. But a person who gets into the way of using them soon gets out of the way of sticking to rare intervals. This is almost inevitable. As long as the powder will produce the results he wants, he is really forced to keep on using it, for the actual cause of the trouble has never been reached, and it keeps making more trouble for him and demanding attention. But after the drug has been used long enough for the system to become habituated to it, the effect grows less and less in proportion to the size of the dose. So the doses have to be increased.

There is no drug that can be taken into the system regularly without working harm. Every drug has a secondary effect, as well as a primary one. The immediate effect is all a man thinks of when he takes it; but the secondary effect follows just as inevitably. It is of an entirely different nature, and it is always bad. For example, the secondary effect of most of the coal-tar headache powders is to reduce the number of red corpuscles in the blood, whose business it is to carry oxygen to all parts of the body.

THE WEATHER.

BOSTON, Aug. 17, 8 A. M.—Forecast for Boston and vicinity—Fair tonight and Saturday; light, variable winds.

WEATHER CONDITIONS.

Scattered local showers have occurred in parts of the lake region, Middle Atlantic coast and Southern states, but otherwise the weather continues fair. The pressure is lowest over the Rocky mountain districts but without defined centre. In the eastern portion of the country it is generally above 30 inches. The temperature continues seasonable. At 8 a. m. in New England it ranged between 56 and 70, at New York it was 74, Washington 74, Chicago 74, Denver 66, and San Francisco 52.

Newport Hospital.

On and after Monday, the 16th inst., the General Out-Patient Department, for the free treatment of patients unable to pay, will be opened daily except Sundays, from 11 to 12 o'clock under the care of the visiting physicians and surgeons.

This treatment is FREE, the only charge being a nominal one for simple prescriptions that can be put up at the Hospital.

July 12th, 1906.

FOR SENIOR CHAMPIONSHIP.

First Teams of Myopia and Meadow Brook In Opening Contest.

Change in the Matter of Admission to the Games—Fast Polo Promised.

The championship polo season will open at the grounds of the Westchester Polo Club tomorrow, when the first teams of the Myopia and Meadow Brook clubs will meet in the opening contest for the senior championship. The teams are announced to be as follows:

Meadow Brook—Colors, sky blue—H. S. Reynal, J. M. Waterbury, Jr., L. Waterbury and R. L. Beeckman.

Myopia—Light blue shirt, white sash—Adelbert Ames, Jr., R. G. Shaw, 2d., R. L. Agassiz and Devereux Milburn.

The cup for the senior championship is one presented by Mr. William Waldorf Astor, through the Tuxedo Club, and has heretofore been played for on a park in Brooklyn. It is to be held one year by the winning club. The Polo Association offers individual prizes which cannot be won by default. The cup represents the championship for big or first class teams, and is played for on the flat; that is, the handicaps of players are not considered in summing up the score. There are four teams entered for the cup this year, the Bryn Mawr First team and the Bryn Mawr Freebooters being the other two.

Besides the contests for the senior cup, there will be a contest for the junior cup. This is given by Mr. Samuel D. Warren, and is for second teams, whose players were not handicapped above five goals on May 15 last. For this four teams were entered: but the Myopia Second team was obliged to default, leaving three to play off—Squadron A, Rockaway and Bryn Mawr Freebooters.

In previous years the winners of the junior championship were made just entries for the senior championship, but this year this is changed, though a team can enter both the junior and senior championships. If within the rules, as it is, by Bryn Mawr Freebooters have done.

There will be a change in the matter of admission to these games that will be quite a change for Newport. The Astor cup has always been played for on a public park, to which the public had free admission, a certain portion being reserved for the polo ists. This idea is to be carried out here. The clubhouse enclosure and the parking spaces on either side is to be reserved for club members and subscribers. This space will be enclosed as in years past. All the rest of the space available for spectators about the field of play will be open to any who care to attend, no admission fee being charged. Ropes will be placed so that teams will keep far enough from the playing field to be out of danger when the players cross the sidelines. That is all the field will be roped off, as has the space in front of the clubhouse enclosure in years past.

The space in front of the stables will as usual be reserved for the exercising of the ponies, but all the rest of the field except the clubhouse enclosure will be free to the public. The gate for admission to the north end of the field will be the regular gate opposite Bateman's on Winans avenue, at the corner of Atlantic avenue. The gate for admission to the space south of the field and the clubhouse will be on Atlantic avenue, just south of the clubhouse.

The make-up of the two teams that meet in the opening match tomorrow promises good polo. The Myopia team is made up of very fast men. Everybody knows that Mr. Agassiz plays a game that is the equal of any shown. Mr. Shaw was for years considered the star player of the Myopias, on account of his brilliant riding. Mr. Ames is a fast rider and an accurate player, and Mr. Milburn has developed into an exceedingly aggressive player, who refuses to be shaken off and can hit well and ride fast.

On the Meadow Brook team are the two Waterburys, the stars of the American polo world, whose playing together is great. Mr. Reynal is a very fast and accurate forward, and Mr. Beeckman, who is again in the game, is playing a steady, accurate back. With both teams feeling fit the play should be fast, for the players will not lack for fast ponies and the pace should be very rapid.

THE NERO COURT OF INQUIRY.

A court of inquiry will convene at the Training Station Monday morning at 10 o'clock, to consider the recent grounding of collier Nero at Block Island. The collier went ashore in a thick fog on a dangerous part of the island, where many a ship has gone to pieces. Wreckers were early at work on the craft, discharged her cargo overboard, and through the fact that no dangerous storms sprang up were able to float her a few days ago, when she was towed to New London for repairs. The members of the court are Captains S. M. Ackley, J. H. Bull and J. B. Milton, and Lieutenant Commander William A. Moffatt will act as judge advocate.

FOR THE CURE OF TUBERCULOSIS.

Attention is called to the fact that Newport has no institution where consumptives can receive proper treatment. The disease requires an outdoor life for its cure, and today the open-air treatment is being universally adopted. It is necessary, therefore, that consumptives be sent to places where such treatment is given, and to secure any permanent result requires the patient to live outdoors for a term of usually not less than six months. During this time the patient must be well fed, and the treatment of consumptives is necessarily more expensive in its nature than that of any other disease. These expenses are now borne by the Newport Association for the Prevention of Tuberculosis, which has at present several destitute cases dependent upon it for treatment. As the Association is supported entirely by voluntary contributions, it is hoped that the public will continue to give liberally to this practical charity. Additional donations have been received from

Mr. and Mrs. Nathaniel Thayer	$50.00
Mrs. H. W. Collord,	50.00
Mrs. E. D. Morgan,	25.00
Miss J. A. Mallery,	10.00
Mrs. W. H. Rogers,	3.00
Dr. C. A. Brackett,	3.00

AT THE CASINO DANCE.

There were a few dancers at the Casino last evening, among the number being Mrs. Alfred G. Vanderbilt, Mrs. Grenville Kane, Miss Sybil Kane, Miss Clara Knight, Miss Freda Paine, Mrs. E. C. Knight and Miss Alice Potter, and Messrs. Dudley Morgan, Jay Cooke, Munson Morris, Potter Palmer and Waller De C. Bigelow.

Mrs. Vanderbilt was stately in black and white net, with bands of black velvet about the skirt. She wore a handsome diamond sunburst and her diamond dog collar, and in her hair was a large white aigrette and tiny pink rosebuds. Mrs. E. C. Knight wore white embroidered mull, the skirt in three flounces, with a blue girdle with long sash ends; Miss Freda Paine, cerise mull, with lace trimmings; Miss Clara Knight, pink liberty satin, with tulle trimmings, and in her hair pink rosebuds and French knots of pale blue velvet ribbon, and Miss Alice Potter, white point d'esprit with lilies of the valley in her corsage and in her hair.

AN UNRULY BOY FINED.

There was but one case before the district court this morning, that of William O'Neill, a large boy, who created a disturbance near Freebody Park Sunday, July 29. It appears that O'Neill was encouraging his smaller brother to renew a fight with another lad, when Manager Sheedy of Freebody Park came up and spoke to O'Neill about encouraging such actions. O'Neill became quite saucy, and even offered to punch Mr. Sheedy, who telephoned to the police and the lads scattered. O'Neill was summoned to the police station, but instead of going sent word that if the police wanted him they could come and get him—and they did. He was today found guilty of creating a disturbance and sentence was postponed to allow him to obtain $10.35 to pay his fine and costs.

Mr. Sheedy did not want the boy prosecuted, but only warned against renewing disturbances about the park, and had he gone to the police station there would have been no trial. When it was necessary to arrest him the police decided to prosecute, so that refusal to go to the station was an expensive move for the defendant.

LOCAL BRIEFS.

—Mr. E. L. Winthrop, Jr., has gone to New York.

—The sale of "Lyndenhurst" will take place tomorrow.

—Battleship New Jersey went to the coaling station yesterday.

—Mrs. Robert R. Livingston and family and Mr. John M. Rutherfurd of New York are at the Muenchinger-King.

—A steam roller is on Washington street, near the repair shops, where crushed stone has been placed on the roadway.

—Captain William Myers, formerly with Mr. T. A. Havemeyer, is here in yawl Dragoon, Mr. H. H. Pierson, who is on a cruise along the coast.

—Alexander J. MacIver has purchased the cottage at 4 Summer street, formerly owned by Joshua Stacy, and expects to occupy it in September.

—Torpedo boats Wilkes, Tingey, Stockton, Blakely and DeLong arrived from Norfolk yesterday and this morning proceeded to the coaling station to coal.

—At today's session of the tenth annual meeting of the Northwestern Federation of Colored Women's Clubs in Providence, Mrs. Allen W. Wiley of this city was elected president.

—The dramatization of Owen Wister's novel, "The Virginian," will be presented at the Opera House Wednesday evening, September 12, with Dustin Farnum in the role of the cowboy hero.

—The members of the choir of Calvary Church, New York, who have been spending the summer here, have gone to New York to sing at the funeral of Mr. Eugene Schieffelin. They will return tomorrow.

—Still another fishing craft, disgusted at the slow fishing, has taken a vacation in the sand of the Goat Island spit. The latest is sloop Sarah, owned by C. W. Powers. She will eventually come off without damage.

—Steamer City of Taunton has been moved to the south side of the north dock at Long wharf, to allow the Puritan to go to Briggs wharf to coal. The Puritan is due to leave for Fall River tomorrow, to resume her place on the line.

—A. O'D. Taylor has rented for G. G. Williams of New Hampshire the upper half of the house at 6 Barney street, to Mrs. Josephine M. Hayes, and the upper half of the house at 16 Bay View avenue, for G. B. Borrows, to William P. Spalding.

—The spile driver from the shipyard was at the J. N. Brown place this morning, hauling the stumps of some spiles which were cut off and which Mrs. Brown wished removed altogether, so that they might not interfere with boats.

—Mrs. Magruder of Monmouth, N. J., Mr. and Mrs. R. L. Roe of Plainfield, N. J., Miss M. A. Nevin and Miss O. G. St. John of Pittsburg and Mrs. W. H. Peck and Mrs. Mary L. Stackpole of New York are registered at the Aquidneck.

—Registered at the Casino are Mr. W. A. Hazard, Mrs. Robert Lee Morrell, Miss Haggerty, Miss Rosamond [illegible], Mr. S. Waterbury, Mr. Byron [illegible], Jr., P. A. Carroll, Mr. John M. Bechtel and Mrs. R. R. Livingston, Mr. [illegible] Iselin, 2d., Mr. Frank S. Fisher and Mr. and Mrs. Herman LeRoy Emmet.

—Theodore H. Monroe has sold to Christian Peterson lots 35 and 39 on Bliss Road Park, containing 7,710 square feet of land and fronting 80 feet on Fenner avenue. He has also sold to Carl W. Eklelund lot 30 on the same tract, containing 4,510 square feet of land and fronting 40 feet on Fenner avenue.

—Mr. Charles M. Cole, owner of dredger Columbia, which was burned at Block Island, arrived this morning from the island with tug William Gallison and mud scows, and the engine, boiler, scoop and other machinery of the burned dredger. It is understood that Mr. Cole is to have another built at once.

—M. A. McCormick has contracted with T. T. Pitman for a three-story extension on the west side of the Daily News building. The added room will give needed extra floor space for the composing room on the third floor, and for the Milne Printery on the second floor. The extension will be of wood, with iron beams, and will be of the most substantial construction.

—Ferryboat Conanicut boasts a wireless outfit, and during her trips back and forth across the bay the messages sent by the warships and the Torpedo Station have been read on the steamer. Assistant Purser Bowler, who has for some months been making experiments at his home, set up the apparatus on the steamer and for a while worked it quite successfully.

—The 30-footers had a race out to the lightship and back yesterday afternoon, in a fair breeze. There were four starters—the Cavalier, Mr. Pemberton Jones; Esperanza, Mr. H. O. Brokaw Jones; Vaquero, Mr. Payne Havemeyer, Jr.; Whitney, and Breeze, Mr. Boelker. It was a pretty race in the beat out and during this the Breeze made a good showing, but on the run back the Breeze dropped behind and the boats finished in the order given above.

—Mr. Saunders proposes to put on some additional trips of ferryboat Narragansett between here and Jamestown, beginning Sunday next, to meet an increased demand for travel. Next week is the one when Jamestown moves to Newport and the Casino to attempt its own tennis tournament. There will be quite a number from Narragansett Pier for the tennis and polo, and the doubled ferry accommodation this year should make the attendance for both places greater than ever.

THE TENNIS DRAWINGS.

Order of the Matches In the National Tournament.

Record-Breaking Entry List of 117 Names, 12 Greater Than Any Before Known.

The entries for the twenty-sixth annual tournament of the United States National Lawn Tennis Association, which will begin next Tuesday morning, were opened at the Casino today by Dr. James Dwight, president of the association. There were in all 117 entries, a record list, the largest previous having been 105, last year.

With 117 entries there will be 53 matches in the first round, 11 drawing byes and going into the second round without a contest. These eleven players are placed five at the top and six at the bottom of the drawing.

A number of well known players are missed from the entry, notably Holcombe Ward and Kreigh Collins, who were members of the team which went abroad to play for the international cup. Ward will play in the doubles with Wright in the defense of the national championship, but says he will not again play in singles. Collins took so much time on the trip to Europe that he does not feel able to be away from his business any more this year. There are in the drawing many excellent players, including Larned, Clothier, Behr, Alexander, Hackett and Waldner, Leroy, the best of the younger players, and Stacum, Fischer, Stevens and Hobart of the older players, and after the poorer players are weeded out in the early rounds excellent matches are assured to the end of the tournament. The drawings are as follows:

WOMEN'S TENNIS.

Mrs. Barger Wallach Wins from Miss Rotch in the Singles—Opening of the Doubles.

The opening matches in the women's lawn tennis tournament in doubles were played yesterday afternoon at the Casino. Each was won in straight sets, and quite handily, except in the match between Mrs. Wallach and Miss Barger and Miss Scott and Miss Cohen. The latter pair proved unexpectedly strong and gave Mrs. Wallach and Miss Barger a hard fight, especially for the second set, the score in this going to 7-5. The summary of the afternoon's play was as follows:

Miss Eleanora Sears and Miss Marion Fenno beat Mrs. Sydney J. Smith and Miss Theresa Iselin, 6-2, 6-3.

Mrs. Rudolph L. Agassiz and Miss Edith Rotch beat Miss Julia Little and Miss Freda Paine, 6-1, 6-2.

Mrs. Barger-Wallach and Miss Edna Barger beat Miss Louise Scott and Miss Cohen, 6-2, 7-5.

This morning the final match in the women's singles tournament and in the semi-finals in the women's doubles were played. In the former Mrs. Barger Wallach was pitted against Miss Rotch of Boston and won in straight sets. The first set was a comparatively easy win, but in the second Miss Rotch put up a harder fight and made the result look at one time quite doubtful.

In the doubles Miss Maude Wetmore and Miss Margaret Rusk played against Miss Eleanora Sears and Miss Marion Fenno of Boston. Three sets were necessary to decide the match in favor of the Boston players, and the contest was well worth seeing. Miss Sears and Miss Fenno won the first set only at 7-5, Miss Wetmore and Miss Rusk took the second at love, but were unable to hold out against their opponents, who took the third and deciding set after a determined struggle, in which of each the quartet played excellent tennis. The excitement attending the match was high, and the many brilliant plays were heartily applauded. The summary of the morning's matches is as follows:

Women's singles, final round—Mrs. Barger Wallach beat Miss Rotch, 6-2, 6-1.

Women's doubles, semi-final round—Miss Sears and Miss Fenno beat Miss Wetmore and Miss Rusk, 7-5, 0-6, 6-1.

The other match in the semi-final round in doubles will be played this afternoon, Mrs. Wallach and Miss Barger being pitted against Mrs. Agassiz and Miss Rotch, and the winner will play the Misses Sears and Fenno tomorrow morning.

FATAL AUTOMOBILE ACCIDENT.

News was received here early this week that D. W. Baldwin, a prominent lawyer of Tioga county, Pa., was seriously hurt by the overturning of his automobile on one of the roads of Westfield, the town of his residence. Two friends of Mr. Baldwin were with him at the time, but escaped unhurt. Mr. Baldwin was thrown under the machine and suffered the fracture of several ribs and a collar bone. A broken rib punctured a lung, and he was badly bruised. He was taken to the residence of a friend, near the scene of the accident, and it was thought that his injuries, though severe, would not be fatal. The case showed improvement, until suddenly this morning the patient's heart weakened, resulting in Mr. Baldwin's death.

Dr. Kate W. Baldwin, a sister of the deceased, left Newport for Westfield as soon as news was received of the accident, as did Dr. Grant Baldwin, a brother, of Brooklyn. Dr. Mary E. Baldwin will leave town tonight for Westfield.

JAMESTOWN.

[Regular correspondence of the News.]

Mr. Merrill A. Drain of Galveston, Texas, is guest at Bryant's Camp.

The local sportsmen have secured several upland plovers during the past week. They say the birds are unusually scarce and wild this season.

Mr. B. S. Coltrell entertained Mr. G. W. Brady, vice president and manager of the Enterprise Transportation Company, at dinner at The Thorndike last evening.

Mr. and Mrs. Robert Perry Watson of Pittsburg, Pa., are in town renewing old acquaintances.

The Jamestown Golf and Country Club are arranging for a country fair the latter part of this month.

A party including Mrs. Jona Harvey and M. M. Riddle of Newton, Miss Washburn of Boston, Miss Cutler of Springfield, Mrs. M. Gaudrau of Munsey, Pa., and M. H. Paterson of Newport were in town yesterday, stopping at the Bay View for dinner.

The regular weekly serial race of the Yacht Club will be held this afternoon.

As there is no special attraction in town, a number of the summer residents will take advantage of the occasion to visit the polo game this afternoon at Bateman's Point.

There was another brush this morning between ferryboats Narragansett and Conanicut, the latter winning.

Mr. and Mrs. F. O. Coombs, Mrs. L. W. Wigg of Providence, Charles A. Spencer of Pittsburg, Pa., and Dr. E. Dodds of New York are registered at The Thorndike.

Miss A. M. Freeze and Mrs. A. B. Moore of Boston, A. J. DuCharme of Detroit and Mr. and Mrs. P. S. Kauil of Chicago are among the latest arrivals at the Gardner House.

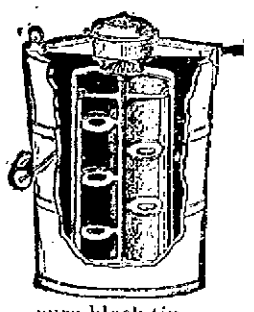

Dr. Alfred Wheeler of Philadelphia and Mr. and Mrs. Blystone of Elmira, N. Y., Mr. and Mrs. C. Cannon of New York and R. M. Litch of Wollaston, Mass., are registered at the Bay View.

Miss E. H. Williston, Mrs. S. D. Carr of Providence, Miss Janet Milne of Fall River, W. B. Jordan of Springfield, Mrs. Charles A. Chick of Arlington, and Rev. Henry C. Geaves of Boston are registered at Maplewood.

ALASKA ICE CREAM FREEZER

This Freezer is one of the latest favorites to claim the attention of the progressive housewife. The secret of its quick freezing is in the dasher.
This is a marvel of simplicity and efficiency. The automatic wooden scraper takes the cream from the sides of the can and throws it toward the centre, where the "mixing spoons" catch and beat it until the freezing is completed.
Every metal part that comes in contact with the cream is coated pure block tin.
We warrant every Freezer to give satisfaction.

Old Looms of Archaic Pattern Still Used.

That cotton weaving had its birth in India is a fact which is known to only a few of the cotton manufacturers of the present day. But the manufacture of cotton in India dates back to the earliest days of the country's history. In old Sanskrit records mention is made of cotton weaving in India as long ago as 3,000 years. At the time of the invasion of Alexander the dress of the Hindoo was described as consisting largely of calico, pure white, or adorned with figures. Among the imports to Europe from India during the first century the Elder Pliny enumerates muslin and calico of superior quality. Even earlier than this, about 450 B. C., Herodotus speaks of the trees of India bearing as their fruit fleeces more delicate and beautiful than those of sheep, and of the natives using them for the manufacture of cloth. From India cotton cloth was gradually introduced into Greece, Rome and Sicily before the Christian era. The antiquity of the textile industry, therefore, is fully established by records which cannot be disputed.

The city of Calicut, on the Malabar coast, which, with Surat, was an ancient cotton mart for the supply of the more Western nations of Asia, gave its name to the variety of fabric known as calico. Some qualities of these were "so fine that one could hardly feel them in the hand, and the thread when spun was hardly discernible." A single pound of the thread was spun out to a length of 115 miles. Dacca, once a large and wealthy city lying northeast of Calcutta, sent from its looms in the early centuries those wonderful tissues of fine muslin, made from a staple too short to be woven by any machinery, named, on account of their fineness, "Abrawan," or "flowing water," and "Shabnam," or "evening dew." Even after the invasion of India by the English an instance is recorded of the fineness of a piece of muslin 20 yards long and 1¼ wide, which weighed only 14 ounces. The Hindoo women spun these almost impalpable threads and wove fabrics from them with the rudest of instruments that, for fineness of quality, have never been successfully imitated. With the decay of the Indian courts, however, the chief customers for these fine goods, the demand ceased, and the manufacture has now been abandoned. Dacca today is little more than a ruin.

Weaving in India today is divided into two branches—handloom and powerloom weaving. The proportion of handloom made cloth to that made by powerloom is fully two to one. In other words, there is about twice as much handloom cloth produced in India as there is of powerloom cloth. Handloom weaving is the most important indigenous industry in India. According to the census of 1901 the population contained 2,700,000 handloom weavers, and about the same number of dependents, making about 6,000,000 people relying on the handloom industry for their livelihood. Of course, this ancient industry has suffered greatly from the introduction of machine made goods, but it is still possessed of considerable vitality. It is doubtful if at any former time a larger number of people were engaged in it. The population of India has more than doubled in the last century, and the general increase in wealth and improvement in the standard of living will probably account for the enormous importation of cotton goods, rather than a corresponding lessening in the products of the Indian looms.

The hand weavers of India have suffered greatly by the competition with the power looms and by the change in the taste of the people. To meet the ever-increasing stress of competition they can only offer to work at smaller wages and for longer hours. By enlisting the services of their wives and children and by leading lives of monotonous, fatiguing toil, they have managed to survive. The native handloom is of an archaic pattern and, like the methods used by the weavers, is centuries old. It is claimed that in preparing the warp the handloomers are incapable of winding more than two threads at a time, though the simplest of the improved mechanical devices would enable them to increase their ability by fiftyfold.

The old English fly shuttle handloom of a century ago is ages in advance of the handloom still employed in India. The powerloom can make cloth possibly better and certainly more cheaply than the handloom, but on account of the disability under which manufacturers labor in India the powerloom is not worked to its full capacity. Outside competition and advancement in the art of weaving will eventually force the use of the powerloom in India, and the coming of that condition will see the beginning of the handloom industry.

If the powerloom weaver of India would improve himself and his methods, and increase his capacity so as to attend to more than one loom at a time, he would soon outdistance the out-put of the handloom. But he confines himself to one loom, and thus brings down the powerloom to the producing capacity of the handloom. The Lancaster weaver attends four and six looms, while the Indian works only one, and tries to make good by long hours and less wages. Labor is plentiful in India, and cheap, but the daily work done is small in proportion to the cheapess of the wage. The system, methods and number required to perform a given work are such that the labor is fully as expensive in result as in almost any other country. Under the present arrangements an Indian weaver, working 72 hours a week, turns out at the very best only 70 pounds of cloth, while the European, working 54 hours, can turn out 468 pounds.

All the superior grades and finer fabrics of cotton made goods are imported into India. Few, if any of them are made there, so that along this line of goods there is little competition for the foreign exports. In the coarser qualities of cotton cloth and cotton yarn, up to 30s counts, and to the making of which the short staple cotton of India is specially adapted, the Bombay mills have an advantage of home grown cotton at their doors. This means a saving of the amount of transportation charges in their favor, assuming that the raw cotton were carried to Europe, and then manufactured into cloth and taken back again.

A FLYING FISH.

Tuesday Mr. E. N. Lawton caught a handsome specimen of flying fish, which has been on exhibition at his fish house. It is larger than any flying fish seen here, at least in years, and is brilliant in color. The appearance of this flying fish and of the tarpon which were also caught here go to confirm the report that the gulf stream has moved closer to this place of late, as these are southern fish, which may follow the gulf stream in summer.

ONE WAY OF SETTLING SERVANT PROBLEM.

[Good Housekeeping.]

During 15 years I have had in my service six girls who have been a comfort and help such as no mere servant can be.

I have never paid wages higher than my neighbors have done, and our home is so small that a maid has to be contress does not bestow—frequently does not believe in—a certain friendliness, cordial sympathy, an interest in the inner life of a girl whose flesh and blood, whose heart, ambitions and loves are not so different from my own.

One plan I have carried out for years has aided me largely in making the best of each maid who comes into my household. Once a month I give her an afternoon of companionship, not in the duties of the house, but in some little trip of recreation she chooses by herself.

Sometimes I accompany her to a matinee, while on pleasant summer days we go picnicking in the woods or to some shore resort. There have been afternoons spent in museums and art galleries—when I have been really astonished at what a glimpse of things rare and beautiful means to such a girl.

If you will try it, making yourself a key to the mysteries of such an exhibit, you will really find a great deal of pleasure in it. Hundreds of women go out of their way to do such work from a settlement standpoint, but it never occurs to them to give such a pleasure to a girl working in their own kitchens.

It is not alone the pleasure given that is appreciated: it is the companionship and kindly interest I find most valued. The holiday I give is not the weekly Thursday off. It is some other convenient day, and you will find as I do that the work has all been satisfactorily completed before the vacation occurs.

LOCAL BRIEFS.

—Steam yacht Ariel and schooner yacht Venecdore have arrived.

—Miss Caroline King Duer is guest of Mrs. Victor Sorchan at "Gull Rock."

—Countess Camille Hoyos of Lessdorf, Austria, is among the late arrivals.

—Mrs. G. A. Huhn, who has been indisposed for several days, is improving.

—Officer Coggeshall returned a "straggler" to battleship New Jersey today.

—Mr. Charles E. Greenough is guest of Mrs. Ogden Goelet at "Ochre Court."

—Miss Electa Havemeyer of New York is visiting Mrs. Harry T. Peters at the Wells cottage.

—Mr. Robert Simpson, who has been visiting here for two weeks, has returned to New York.

—Miss D. F. Spicer of New York is visiting Mrs. J. S. Phipps at the Lorillard Spencer cottage.

—Mrs. William Astor will sail from Europe August 25 and is expected at "Beechwood" about September 1.

—Mr. and Mrs. James W. Gerard of New York, just from Europe, are to take a cottage here for six weeks.

—Mrs. Hermann Leroy Emmet is visiting her mother, Mrs. H. A. Johnson, at the latter's residence on Gibbs avenue.

—Mr. Thomas Downing of the Boston postoffice and Mrs. Downing are at the Johnson cottage on John street for two weeks.

—Mr. and Mrs. Thomas Hade of New York have arrived for two months.

—Mr. W. S. K. Wetmore has arrived at "Chateau-sur-Mer."

—The funeral of Mrs. Maria Redding, mother of Mrs. Martin Reddy of this city, took place this morning from her late home in Fall River.

—Mr. and Mrs. William A. Jack of Washington, formerly of this city, have completed their visit to Mr. James H. Chappelle and returned to their home.

—The Fall River papers of yesterday say that the police of that city have received word that 13 apprentices have deserted from the Training Station this week.

—Seaman Apprentice Badley, arrested for the larceny of a watch, being unable to pay his fine and costs, $27.50, was taken to the Providence county jail today.

—The fire which caused an alarm from box 42 Wednesday afternoon was not in St. Mary's School, but in the next house, owned by Mrs. Beattie, on William street.

—Miss Rosamund K. Street, who was one of the bridesmaids at the Sands-Minott wedding early in the summer, is guest of Mrs. William H. Sands at "Wee Bush."

—Messrs. Wolfenden, Draper and Broadbent, who played here with the Fall River cricketers this week, will be members of the Zingari team, which is shortly to make a tour of Canada.

—Warrant Machinist C. A. Rowe is detached from the Norfolk navy yard and ordered to the works of the Fore River Shipbuilding Company, for duty in connection with fitting out the Vermont, and on board that vessel when commissioned.

—The Paskamansett Gun Club will hold its mid-summer tournament on its grounds near New Bedford tomorrow, when there will be an all-day shoot, at which many of the best men in the country are expected. Among the amateurs who have announced their intention of being present are Messrs. Powel, Dring, Derby and Hughes of the Aquidneck Club of this city.

—Mr. J. E. Gray is carrying on a good work among the fishermen of the Seaconnet river and Newport. He has supplied more than 40 fishing steamers with good reading, also the fishing shanties at Seaconnet Point, Fogland, the Creek in northern Little Compton and in Tiverton. He has this summer extended this work among many of the fishing vessels from Massachusetts and Maine. He uses hundreds of colportage books from Northfield, tracts from Dublin, Ireland, and the American Tract Society.

You are wasting time if you are waiting for nature to do all the work. Everybody needs a little help, so does nature; assist her by taking a course of Hollister's Rocky Mountain Tea. Tea or Tablets, 35 cents. Wright & Hay, 2 Washington Square.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

John M. Callahan, Special Agent.

Travels Through Africa—Some Have Set Foot Where No White Man Ever Ventured.

[Pearson's Weekly.]

There will soon be coming to England the famous woman explorer, Miss Mary Hall, who arrived the other day at Khartoum, after traversing Africa from south to north. Starting from Chinde, on the coast of Portuguese East Africa, nine months ago, Miss Hall sailed up the Zambesi and Shire rivers until she reached Port Herald, whence she traveled by rail to Chiromo. Borne on a hammock by natives to Blantyre, in Nyassaland, and thence to Abercorn, on the south of Lake Tanganyika, which she crossed by boat, the intrepid lady eventually reached Lake Victoria Nyanza after walking miles and miles through German East Africa. During this 28 days' journey Miss Hall saw no white people whatever. On her arrival at each place the natives, headed by their chief, brought her bananas, goats, beans, firewood and all kinds of presents, in return for which Miss Hall gave them calico, beads and salt. The native women, too, sat round her for hours at a time, alternately looking at her with wonder and feeling the intrepid woman's clothing. In many villages the natives had never seen a white man or woman before.

At the moment, too, another woman, Mrs. French Sheldon, famous as a writer, is travelling in the unexplored regions of West Africa for the purpose of scientific and botanical research. Besides the native carriers, she is accompanied only by a woman secretary. Mrs. French Sheldon is the greatest woman explorer alive. She has visited nearly every country in the world and has encircled the globe at least twice. She has tramped over 2,000 miles in the interior of Africa, has shot big game under nerve-trying conditions and has won the confidence of the na-

ness.

In her first journey to East Africa and on the announcement of her intention to visit the province under the rule of the cruel Sultan of Mandara, the German authorities endeavored to dissuade Mrs. French Sheldon, fearing harm would happen to her. But the old barbarian, who had never seen a white woman before and who had in vain offered 400 cows to any Arab who would bring him a white wife in his caravan, was too amazed to do more than to gaze at his visitor in awe and wonder. Even the hostile Masai, upon whose land no white man had at that time set foot and who was then considered the terror of all Africa, allowed here to visit their homes, took her to their native villages and entrusted her with many of their state and family secrets.

Yet these Masai warriors, a horde of 1,000, dressed in monkey skins, with long hair streaming behind, carrying huge hide shields and eight-foot spears and having their faces bedaubed with paint and clay, would have frightened most men out of their wits.

Mrs. Peary, wife of the famous Arctic explorer, has accompanied her husband in a search for the north pole, but a far more hazardous undertaking was that of Mrs. Leonidas Hubbard, the first white person to visit the Nascaupee Indians.

This woman, who accompanied the mission of exploration which cost her husband his life by starvation, tramped across the Labrador and penetrated wilds unknown to white men. Again and again her life hung on a thread; several times she was almost drowned in the perilous rapids, but eventually, with two companions only, she reached the Nascaupees, and after a sojourn with them for several weeks returned safely to her New York home.

FREE! FREE!

To Sufferers From Dyspepsia and Indigestion.

An Opportunity Worthy of Your Notice.

If you suffer with stomach trouble—Dyspepsia, Indigestion, Nervousness, etc.—this offer we make to the people of Newport should interest you. While we know that we have the true remedy for stomach troubles, we realize that you don't know it. Hence our determination to make it easy for you to convince yourself. In placing before you Dr. Richards Dyspepsia Tablets as the rational remedy for Dyspepsia and Indigestion, the proprietors recognize how far so many statements of the makers of similar preparations have fallen short of their claims. Please be assured that the remedy here offered is a true remedy and a special remedy for weak and tired stomachs; that there is nothing that equals Dr. Richards Dyspepsia Tablets in results, and that all this has been demonstrated hundreds of times in actual cases of people who have recovered health and strength and happiness by the use of these tablets. With such a medicine an offer of this kind can be made without hesitancy, for while we lose the fifty-cent bottle we give you, we make a friend that assists us, through gratitude, in the sale of many others.

FULL BOTTLES

Of Dr. Richards Dyspepsia Tablets will be given away free to all persons suffering with stomach ailments at the address given below. First come, first served, and only this one chance offered. Remember it is not a sample that is offered, but a regular size bottle of Dr. Richards Dyspepsia Tablets, which retails for fifty cents.

HEAVILY INVOLVED IN REAL ESTATE.

First National Bank of Chelsea Closes Its Doors.

Suspension Embarrasses Hundreds of Persons.

CHELSEA, Aug. 17.—The business community of Chelsea was surprised when it became known that the First National Bank of that city, one of the oldest financial institutions in this section of the state, had been closed and Bank Examiner Alfred Ewer placed in charge. Many of the small tradesmen have practically all their ready money tied up in the bank, but it is expected that relief will be afforded by the Winnisimmet National Bank of Chelsea, which has offered to pay to depositors of the First National 50 per cent of their accounts. The remaining banks in Chelsea have but a few thousand dollars to their credit at the First National, and will not be directly affected by the difficulty.

During the morning throngs of depositors put in their appearance at the bank, and at 10 o'clock more than 500 people were assembled there. There was no disorder, however, the police authorities having taken precautions to send a dozen patrolmen to the scene to maintain order. The employes of the bank reported for work at the usual hour today, and Bank Examiner Ewer used them in assisting him to learn the condition of the embarrassed institution. Mr. Ewer decided that holders of safe deposit vaults had a right to visit these vaults and examine their property there, but only persons who were able to prove conclusively that they rented safe deposit boxes were admitted to the bank.

It was learned during the morning that the closing of the bank will embarrass hundreds of persons, in addition to those who placed their savings in the institution. A number of business houses in the city kept sufficient cash on hand in the First National Bank to make up their weekly payroll, and it was apparent today that a number of shop and store employes might be compelled to wait until next week for their wages.

It is said that the difficulty at the bank was brought about by a steady transfer of large accounts to Boston banks and the Chelsea bank was thereby hampered for ready money. Examiner Ewer said today that he is unable to state how serious the failure is. Two years ago the bank had deposits of $800,000 and a surplus of $130,000.

In addition to the withdrawal of large cash accounts, it has been learned that the First National Bank was heavily involved in real estate, which tied up their money to the extent of about $500,000.

Thomas Martin of Wakefield, one of the directors of the bank, is responsible for an application for a government examination of the bank's affairs. Some time ago he began an investigation of the condition of the finances of the institution with which he is connected, and as a result of this investigation Bank Examiner Ewer was summoned.

During the morning there were small runs on the Chelsea savings and the co-operative provident banks, but as soon as the depositors realized that there was a plentiful amount of cash on hand to meet their demands the run ceased, and no further trouble was anticipated by the bank officials.

President Hinckley of the bank is seriously ill at his home in Brookline, and it is said he cannot recover. Bank Examiner Ewer refused to discuss the bank's affairs, or to make any statement regarding the despatch from Washington, saying that the bank's failure was reported due to excessive loans to its officers and directors. Any reports on his discoveries at the institution, he said, would be made to headquarters at Washington.

The cities of Chelsea and Everett and the town of Revere will lose some of their funds by the failure of the First National Bank of Chelsea unless the bank is able to pay dollar for dollar when the settlement is reached. The town of Revere had about $35,000 of the money belonging to its water department on deposit in the First National. Everett has no national bank, and at the time of the failure there was about $6,000 of its money in the First National. The city of Chelsea had only about $2,500 in the bank.

DUE TO EXCESSIVE LOANS.

Comptroller of Currency Informed of Chelsea Bank Suspension.

WASHINGTON, Aug. 17.—The comptroller of the currency has received advices by telegram from National Bank Examiner Ewer that the First National Bank of Chelsea, Mass., has been closed by action of the directors. Examiner Ewer has been appointed receiver. The failure of this bank is reported by the examiner to be due to large excessive loans to officers and directors of the bank.

The following is a statement of the resources and liabilities of the bank at the date of its last report of condition made to the comptroller of the currency, June 18, 1906:

Resources—Loans and discounts, $1,111,586; United States bonds to secure circulation, $50,000; premium on United States bonds, $2,250; banking house and other real estate, $60,778; due from banks, $22,856; cash and cash items, $57,379; redemption funds, $2,500; total, $1,309,849.

Liabilities—Capital stock, $300,000; surplus and profits, $139,344; circulating notes, $49,500; due to banks, $19,733; dividends unpaid, $543; deposits, $879,729; bills payable, $120,000; total, $1,309,849.

MINERS CARRY NOME COUNTRY.

Election Passed Off Quietly, With No Fraud at Polls.

SEATTLE, Wash., Aug. 17.—Cale and Waskey, the candidates of the miners of Alaska, have carried the Nome country known as the Second judicial district by handsome pluralities. Their election is now conceded by all. Special despatches to the Post Intelligencer give the following results in all precincts heard from, including the Tanana country, Nome and the Seward peninsula, Valdez, Sitka, Juneau and Skagway:

Long term—Thomas Cale (Miners), 4,613; short term, Waskey (Miners), 4,342. C. D. Murane (Republican), 1,602; ex-Governor Swineford (Democrat), 1,137; Judge Mellen (Democrat), 861. Cale carried Juneau, as did Swineford.

The first election for the delegate to Congress from the district of Alaska has passed off quietly, the despatches recording few cases of disturbance and none of fraud at the polls. The miners have given emphatic expression as to their choice, as Cale and Waskey were picked in the field after the two leading political parties had decided to be represented.

TO GO INTO EFFECT NOVEMBER 1

Another Reduction in Fare Between Providence and New York.

PROVIDENCE, Aug. 17.—Another reduction in the rate between Providence and New York is to be made by the New York, New Haven & Hartford Railroad Company. At present the Shore line tickets to New York are not sold for two cents a mile for the entire distance. The old price is maintained between New London and New Haven and the fare between Providence and New York is $1. Next November this part of the Shore line will have the two cent tariff and then the New York fare will be lowered. The shortening of the distance by the latest measurements of the engineers also will help reduce the fare to New York. The through Boston and New York rate will not be changed until November 1, when the last tariff on the two cent basis between New Haven and New London will go into effect.

TO MAINTAIN THE LAW.

French Cabinet Discusses Church and State Question.

PARIS, Aug. 17.—The cabinet council at Rambouillett today discussed the church and state separation question, resulting in the government's firm resolve to maintain the law.

Minister of Public Works Barthou, who was seen later, said that the decision of the government practically did not change the situation. The provisions of the law would be carried out integrally.

CONCLUSIONS ANNOUNCED LATER.

Moody Discusses With President Filling of Vacancies on Federal Bench.

OYSTER BAY, L. I., Aug. 17.—Attorney General Moody, who was a guest of President Roosevelt last night, left Oyster Bay for Washington today. He said he had discussed with the President the matter of filling several vacancies on the federal bench. The conclusions reached, he said, would be announced later when the President made the appointments which had been decided on. Nothing except routine matters were talked about, he said, and no reference made to Standard Oil suits.

IDENTITY CONFUSED.

Avon Woman Learns That Niece in Finland Is Safe.

AVON, N. Y., Aug. 17.—A despatch was received today by Mrs. Herbert Wadsworth from her niece, Miss Nelka Smirnoff of Finland, stating that she is well and knows nothing of the case of Mlle. Smirnoff, who was beaten by the Chevalier guards at St. Petersburg several days ago.

Death of Sophie May.

SKOWHEGAN, Me., Aug. 17.—Rebecca S. Clarke, the noted authoress, better known as Sophie May, and the writer of many books for children, died at her home in Norridgewock, Me., last night. She has been in feeble health for several months. Hemorrhages were the immediate cause of her death. She was 73 years old.

THE 1906 HORSE SHOW.

Not Since Its Inception Ten Years Ago Have the Prospects Been So Bright.

Not since its inception in 1896 have the prospects of the Newport Horse Show for an interesting display been so bright. The prize list recently sent out is unique in many particulars, and while preserving the most attractive of its former features presents a variety of new classes which should fill well. Exhibitors are frank to say that for business-like conditions and comprehensiveness the Newport Horse Show has always turned out a model prospectus, and are particularly gratified to find that this year the amateur and the appointment classes will be conspicuous by their absence. It was time this departure was made, since their decision invariably caused many heartburns and much ill feeling, while appointment classes, however necessary at one time, have outlived their usefulness as an educational feature of such events.

Among those who will enter this year in the harness classes are C. W. Watson, A. G. Vanderbilt, E. T. Bedford, H. H. Ladew, John Gerken, G. W. Watson, L. Strauss, Tichenor & Co., Strauss & Hexter, C. T. Proctor, General Booth, R. P. McGrann, E. H. Harriman, John Doyle, Ponzo Savage, Manning & Seelig, G. D. King, Otto Kahn, Miss Gilbert, Miss Maxwell and many local exhibitors.

In the saddle classes will contest P. R. Larocque, Charles Holloway, Otto Kahn, Mrs. Gerken, J. W. Patterson, W. A. McGibbon, W. H. Collier, T. Ryan, S. Holloway, J. Donnelly, E. H. Harriman, H. R. Ladew, Tichenor & Co. and others.

In the hunting events will be seen horses owned by S. Holloway, Mrs. Dietrich, L. Young, Miss Elkins, J. E. Davis, David Dunlop, P. F. Collier, A. G. Vanderbilt, C. Pilzer, T. Mangam, J. Kenney, the Union County Hunt and others from Boston, New York and Canada.

As usual the boxes are all sold, with the exception of one or two to be re-sold for absentee purchasers, and the seats are going off rapidly. As the climax of the Newport season the Horse Show has established itself and none yet held has so brilliantly attained this eminence as will probably that of 1906.

FISH ACTIVITY.

While things are still quite dull in the fish line, there are some indications of coming activity. Several of the local fishermen have been catching mackerel, small to medium, and some bull's eyes have been landed. C. A. Easterbrooks getting about 400 of these yesterday and today. Yesterday the Mary Emerson brought in 1,400 medium sized mackerel, showing that the schools were not all near shore. A few swordfish arrived and Captain John Brownell brought in two fares of 50 barrels each of weakfish.

Untermyer Accepts McClintock's Challenge to Produce Letter.

NEW YORK, Aug. 16.—Samuel Untermyer, counsel for the International policy holders committee, accepted today the challenge of Emory McClintock, made Wednesday to "produce one letter, or a copy of a letter" that would prove the assertion that Mr. Untermyer had made, that "his written instructions in his own handwriting, not yet published, to the Massachusetts legislative agent of the Mutual, as to how to kill legislation, will be interesting reading."

Mr. McClintock in his statement did not say explicitly that he had written no letters about killing legislation in Massachusetts; he simply challenged Mr. Untermyer to produce documents to show that he had given instructions how to kill such legislation, the tone of the letter indicating that he had made no attempt to influence legislation in the Bay State.

The counsel for the international policy holders' committee interpreted Mr. McClintock's statement to mean that he had never written letters advising the Mutual's agent to kill a certain bill. Mr. Untermyer produced a batch of letters in Mr. McClintock's own handwriting—a matter that Mr. McClintock did not attempt to deny to reporters—and the originals of telegrams from Mr. McClintock saying specifically that he wished a certain bill killed, but not suggesting how it should be done.

Accompanying this batch of letters and telegrams was a telegram sent to the Mutual's agent while the McClintock correspondence was going on and signed "General," which said: "Have mailed you draft for six on Boston today."

It was asserted that the word "General" was the nom de plume that Andy Fields, the Mutual's chief lobbyist, used in certain kinds of confidential communications. There was no intimation at Mr. Untermyer's office today that Mr. McClintock knew anything about the "General" telegram.

The legislation in Massachusetts to which Mr. Untermyer referred was a bill to reduce the reserves from a 4 per cent actuarial basis to a 3 per cent American basis. Mr. McClintock wanted it put on a 3½ per cent basis after a three per cent bill had been introduced in the legislature. He consulted with the actuaries of other companies and went to Boston to speak in a measure for all the large companies.

There he met, he says, for the first time, W. J. Holden, the Mutual's registered legislative agent. He regarded the 3½ per cent bill as his own measure and he wanted that passed. It was amended in various ways, and there began the correspondence, after Mr. McClintock's return to New York, part of which Mr. Untermyer gave out. He would not tell how he obtained the originals of the correspondence.

The "General" telegram as sent to Mr. Holden, is assumed to mean that $6,000 was sent to him to use in securing the kind of legislation desired by the Mutual.

Mr. McClintock had been looking over his correspondence book before Mr. Untermyer gave out these documents, and gave an explanation of the correspondence to the reporters before they had seen copies of it. He said:

"I never wrote Mr. Holden any instructions as to how to kill legislation. I may have written him that under certain circumstances we would prefer to have a bill killed than have it become a law, but as to the method of killing legislation I never wrote him a word. This bill was an actuarial measure. In a certain sense it was my bill."

When Mr. McClintock was asked if he knew of any money having been sent to Holden to influence legislation he said he did not. Mr. Untermyer would make no comment on the correspondence.

SUMATRA WINS SECOND RACE.

Close Finish in Which the Auk Is Barely Beaten.

MARBLEHEAD, Mass., Aug. 16.—The Auk, owned by Charles F. Adams of the Quincy Yacht Club, and the Sumatra, owned by Francis Skinner of Boston, and sailed by her designer, Mr. Crowninshield, divided honors in the fifth and sixth trial races to select the three defenders for the Roosevelt cup, which were sailed off this place today, the former boat taking the first and the latter the second race.

The Auk also made a pretty bid for first honors in the afternoon contest, being beaten out by the Sumatra by barely 12 seconds, with the Wildrin Kid third.

Today's weather was just to the liking of Mr. Adams's boat, a fairly good sailing breeze and smooth water. She led all the way in the first race. In the second match the Auk led until within one-eighth of a mile to the windward mark, when the Sumatra forced her about. The next tack to port seemed to help the Auk very much, and, coming about to starboard, Mr. Adams crossed the Sumatra's bow within 100 feet of the turning mark, and rounded 16 seconds ahead of the Sumatra.

On the run home the wind freshened and the Sumatra, about half a mile from the finish, ran by the Auk to port and came tearing across the line in a very close finish, being less than five lengths ahead.

ABANDONS TRIP TO POLE.

Wellman Says It is Too Late in Season to Make Attempt.

LONDON, Aug. 16.—The Christiania correspondent of the Daily Mail says that private letters have been received from Walter Wellman, who is now at Spitzbergen, stating that owing to the lateness of the season he has abandoned his attempt to reach the North Pole by means of his airship.

ASSOCIATION WORK FOR YOUNG MEN.

Five business men of Los Angeles, California, have each given $25,000 toward an association building for that city. A rapid canvass, which was suspended a few days following the earthquake, when $211,000 had been pledged, was resumed, and on May 21, $317,000 was in hand. This may be increased to half a million dollars. The association temporarily occupies an old stable, where its practical educational classes have attracted a membership which pay $1,000 in fees.

At Dayton, Ohio, the contract has been let for a new Young Men's Christian Association building to cost $100,000, three others having been successively occupied and outgrown. This new building will be 132 feet by 211 feet and four stories high, providing the greatest clubhouse in the city for 3,000 members. In it will be apartments for 200 young men, a great restaurant and educational classrooms for over one thousand students. A handsome building on the property, which has been the headquarters of a popular club, will be used exclusively for a boys' department.

George Foster Peabody and General Palmer erected a railroad association building, costing $25,000, at Helper, Utah, when retiring from the road, as a testimonial to their employes, which was opened a few months ago. Helper is a town of less than 600 people. The association already has a membership of 388 railroad men and 12 citizens. The two members were a Roman Catholic and a Mormon.

The Copper Queen Mining Company at Bisbee, Arizona, expended $75,000 for a clubhouse for its men, thinking that the Y. M. C. A. would be too "narrow" for this border mining town. The club failed and the building was turned over to the association, which now has four times the membership of the club.

The association at Washington, D. C., has in its membership men from almost every state in the Union. Its handsome new $100,000 building is one of the sights of Washington. During the summer it will make its roof garden popular with concerts and lectures. Lunches and soft drinks will be served there. It has two tennis fields with six courts, arranges touring parties for its membership, and aquatic feats and life-saving instruction are popular in its great swimming pool.

NAVAL NOTES.

Rear Admiral Charles W. Rae, chief engineer of the navy, has left Washington for a month's vacation, which he will spend at North East Harbor, Me. Captain Albert F. Dixon is acting chief of the bureau.

Life saving medals have been awarded to two coxswains of the navy through the Treasury Department. The recipients are Emile H. Wagner and Harry H. Kittel, respectively of the Kearsarge and the Alabama, each of whom saved shipmates from drowning.

Lieutenant Commander John M. Poyer has reported for duty in the Bureau of Equipment. He succeeds Lieutenant Commander Hughes, who is assigned to duty as the navigator of cruiser Washington.

No steps have yet been taken for the building of the two seagoing tugs authorized by Congress three years ago at an expense of $175,000 each. The original intention was to have the tugs built at government yards, but the department has considered it wiser to have them built by contract. They are to have a speed of 13 knots and engines of 1,160 horse power.

Without formal ceremonies the protected cruiser St. Louis, built at the yards of the Neafie & Levy Shipbuilding Company in Philadelphia, has been transferred to the government. The St. Louis will not be placed in commission until inspected by a naval board to ascertain whether the contract specifications have been carried out by the builders.

Because of the urgent demand for more naval officers Secretary Bonaparte has set September 12 for the graduation of the first instalment of the class of 1907 in the Naval Academy. Those so graduated must have made at least 75 per cent during their last term and 75 per cent during the entire academic course. In the same manner a second graduation will be held in February, based upon standing, and a third in June.

BOMB THROWN INTO PROCESSION

Resulted in Volley Fired by Infantry, Injuring 30 Persons.

WARSAW, Aug. 16.—A boy threw a bomb at 9 o'clock this evening into a procession which was passing through Choledna street on its return from a pilgrimage to the shrine of the Holy Virgin at Holdino, near Warsaw, wounding two of the processionists. The explosion attracted a patrol of infantry, who, without warning, fired a volley, wounding 30 persons.

A band of revolutionists today attacked a government alcohol store and shot and killed a clerk and wounded two other persons. The band tried to rob the cash drawer. A patrol of infantry surrounded the house and the revolutionists fired from the windows, but all were arrested.

NOT ONLY MIGHT WE AS WELL KEEP OUR BODIES COOL, BUT ALSO OUR HEADS COOL WHEN WE GO TO BUY THINGS TO WEAR. IS IT NOT WELL DURING THESE "FAKING" DAYS OF COMMERCE TO DEAL DURING THE "REDUCTION TIMES" WITH THE STORE THAT TRIES TO DO THE SQUARE THING THE YEAR ROUND? REMEMBER IF YOU GET BIT ON A SUIT OR OTHER THINGS TO WEAR THAT YOU MUST STAY BIT UNTIL YOU WEAR OUT THE CLOTHES YOU GOT—OR, GIVE THEM AWAY. EITHER IS EXPENSIVE. IS IT NOT EVEN BETTER TO GIVE AWAY SNIDE CLOTHES THAN TO WEAR THEM? GOOD CLOTHES MAKE THAT SUCCESSFUL FEELING. LEGITIMATE STORES, THOUGH, AT THIS TIME OF THE YEAR MAKE LEGITIMATE REDUCTIONS IN PRICES OF SUMMER STUFF. WE HAVEN'T A GREAT MANY LIGHT WEIGHTS IN CLOTHES AND FURNISHINGS FOR YOUR BODY LEFT SO WE CAN YEARLY LET THESE SLIDE CHEAPLY.

MEN'S OUTING SUITS, were $10 and $12, reduced to $7.50.
MEN'S OUTING SUITS, were $7.50, reduced to $5.
MEN'S STRAW HATS, were $3, $2.50, $2, reduced to $2, $1.50, $1.
MEN'S SUMMER UNDERWEAR, were 50c., reduced to 39c.
MEN'S NEGLIGEE SHIRTS, were $1.25 and $1, reduced to 79c.

RESPECTFULLY,
CROWN CLOTHING CO., THAMES ST.

R. H. Macy & Co.'s Attractions Are Their Low Prices

B'way at 6th Av. 34th to 35th St.
NEW YORK CITY,
The Largest Retail Store Under One Roof in the World.

HAVE ESTABLISHED DAILY WAGON DELIVERY SERVICE IN NEWPORT,

affording Newport patrons the same advantages enjoyed by New York City patrons of this famous establishment—

FREE DELIVERY OF YOUR PURCHASES.

That you are unable to visit the store as conveniently as our city customers matters little.

ORDER BY MAIL ANYTHING YOU WANT.

Order from our advertisements in the New York daily newspapers or from our 500-page SPRING and SUMMER CATALOGUE, which will be SENT FREE UPON REQUEST. We publish, in addition, a monthly GROCERY CATALOGUE and mail it to customers on our regular mailing list. Merely request it and you will receive it every month.

We have a SPLENDID MAIL ORDER ORGANIZATION AND A LARGE FORCE OF EXPERIENCED SHOPPERS WHO DEVOTE THEIR ENTIRE TIME TO MAIL ORDER CUSTOMERS.

If desired, OUR REPRESENTATIVE IN NEWPORT WILL CALL DAILY FOR ORDERS.

WE SELL FOR CASH, GIVE NO DISCOUNTS AND PAY NO COMMISSIONS.

WE SELL CHEAPER THAN ANY OTHER HOUSE.

"CHARGE" ACCOUNT CONVENIENCES AT MACY'S.

START A DEPOSIT ACCOUNT AND HAVE YOUR PURCHASES REFERRED TO IT FOR PAYMENT.

It differs very greatly from the usual form of a charge account. You have ALL the CONVENIENCES of an ordinary charge account at a credit store—you have EVERY ECONOMY Macy's STRICTLY CASH SYSTEM affords, and, in addition, you get 4 per cent. INTEREST on your daily balance, compounded every three months.

Deposit any sum that suits your convenience. Make purchases in the usual way, and have them "charged" in the unusual way—to the money you have on deposit. Statements will be mailed to you monthly. While your deposit cannot be checked against for expenditures made outside of the store—AS WE DO NO BANKING BUSINESS—any or all of it can be withdrawn at any time.

R. H. MACY & CO.
New York.

AUGUST.

9315 Waiting at the Church,
Ada Jones
This is the much talked of song in English dialect sung by Vesta Victoria, the great English music hall singer, during her recent successful engagement at the New York vaudeville theatres. The music is by Henry E. Pether and the words by Fred. W. Leigh. The song relates the troubles of a young girl who had made all arrangements to be married and was waiting at the church when her lover sent word that he could not marry her, for his wife wouldn't let him. It is excellently sung, as are all of Miss Jones' Records.
23 Other Good Ones.
Send me your address and I will send you the full list of 24 new August records. PRESS OF CHARGE. Play them over and keep what you like. CALL and HEAR them.

SLOW RACE WON BY THE SUMATRA

Light Winds on the Seventh Day of Contest.

Took Over Hour and a Half to First Mark.

MARBLEHEAD, Mass., Aug. 17.—The Sumatra, owned by Francis Skinner, won the seventh trial race for the Roosevelt cup, today.

The Roosevelt cup trial races, which are being conducted this week by the Eastern Yacht Club, for the purpose of selecting three American defenders against the German challengers, are rapidly becoming a question of endurance. Six races in four days have turned sport into something akin to hard work, while not a few of the skippers are nearing the belief that the chances of their boats being chosen are fading with each race.

Realizing that the strain of hard racing is becoming greater each day, and also that the crowding at the line, especially on starts to the windward, places some of the faster yachts in unfortunate positions, the regatta committee planned yesterday to begin the elimination process at the two races today.

The committee also believe that the yachts yesterday had the first conclusive test under equal conditions, for the wind was strong and true practically throughout the day, and that one more day with similar conditions will develop sufficient data to warrant asking some of the owners to drop out and give the faster boats a chance.

The racing during the past four days has undoubtedly been the best of the season, from the small boat standpoint and even if some of the boats are dropped their owners will have had a good run for their money.

Early conditions today resembled very much those that prevailed at the same time yesterday. Sunrise found a thin haze on the water, and very little wind, but a few hours later the mist disappeared, and a breeze began to fan in from sea, giving promise of another day of certain but moderate racing weather.

The 17 yachts reported at Half Way Rock, the starting place on time, but most of them had to be towed out on account of the light breeze. When the committee arrived the wind was a mere breath, so that at 10:50 it was decided to postpone the start until later in order that the boats might have the benefit of the breeze should it strengthen. The weather was perfectly clear, and there was hardly any roll to the sea. Along the north shore the breeze seemed to be fresher than at the starting point off this place, and there was some hope that there would soon be enough wind to insure a good race.

The committee waited until nearly 11:30 before deciding to start the race and then hoisted signals for a triangular course, with a three-mile beat east-southeast, a reach about southwest and another reach to the finish. At 11:30, when the preparatory signal was sounded, the wind was blowing scarcely more than three or four knots an hour. The indications were there would be an unsatisfactory contest, with streaks of wind from various quarters playing an important part.

The yachts started at 11:40 on the beat to the windward mark, and the Lorelei managed to get the best place, on the southern end of the line. The Spokane, in the middle of the fleet, passed off shore within a minute of the start, and made a long board out to sea, wind-hunting. Five minutes later the rest of the fleet followed her. The yachts moved very slowly, and there was little prospect of their turning the first mark for more than an hour unless the breeze strengthened. The Caramba got over the line ahead of time, and was forced to return and start again.

The yachts were more than an hour and a half covering the three miles to the first mark. The times at the turn of the first 10 boats follow:

Caramba, 1:15:25; Sumatra, 1:15:31; Skiddoo, 1:17:15; Chewink VII, 1:17:53; Vim, 1:17:58; Ellen, 1:20:28; New Orleans, 1:20:57; Alecto, 1:21:10; Bonidrel, 1:21:35 Windrim Kid, 1:21:48.

Sheets were eased to starboard for a broad reach to the second mark, and within two minutes after the turn the Sumatra had gone by the Caramba and taken the lead. In the beat to the windward marks the boats that held to the southward lost, while those which chose the middle course or held to the north were first around. At one time it looked as if the Auk, which had gone to the south, had the best place, but at the turn it looked as if Mr. Adams, her skipper, had made a mistake.

The yachts ran to the second mark with a slightly increased breeze. Nevertheless, it took them three quarters of an hour to go the three miles. Soon the Bonidrel, which was in eighth place at the first mark, ran up into fifth place about half way down, but turned sixth. The Sumatra not only maintained her lead over the Caramba, but increased it, and was the first to swing around the second mark and head for home. Some of the yachts ran up spinnakers on the run to the second mark, and nearly all shook them out again on going to the finish. The time at the second mark, as seen from shore, was as follows: Sumatra, 2:00:27; Caramba, 2:02:01; Skiddoo, 2:03:18; Chewink VII, 2:05:01; Vim, 2:07:50; Bonidrel, 2:08:46; New Orleans, 2:09:30; Alecto, 2:10:25; Ellen, 2:10:41; Hayseed III, 2:11:10; Windrim Kid, 2:12:01; Manchester, 2:12:04; Auk, 2:12:53; Cod, 2:13:24; Spokane, 2:13:35; Sally VIII, 2:16:59; Lorelei, not timed.

LATEST NAVAL NEWS.

Orders to Officers and Movements of Vessels Reported Today.

(Special despatch to the News.)

WASHINGTON, Aug. 17.—The following orders to officers were issued by the Navy Department today:

Lieutenant D. P. Mannix, detached from the Colorado and ordered home.

Lieutenant G. E. Gelm, detached from the Severn and ordered to the Maryland.

Ensign C. E. Brilliart, detached from the Whipple and ordered to the Maryland.

Ensign W. H. Lenz, detached from the Scorpion and ordered to the Georgia.

Ensign C. E. Smith, detached from the Maryland and ordered to the navy yard, Norfolk.

Midshipman J. J. London, detached from the Pennsylvania and ordered to the Eagle.

Midshipmen E. G. Ellison and W. E. Eberle, detached from the Pennsylvania and ordered to the Colorado.

Midshipman R. P. R. Neilson, detached from the Virginia and ordered to the Washington.

Midshipman J. W. Wilcox, Jr., detached from the West Virginia and ordered to the St. Louis.

Midshipman C. S. Graves, detached from the Chicago and ordered to the Princeton.

The following movements of naval vessels were reported today to the department:

Arrived—Arethusa at Lambert point, Rhode Island at Greenport, Dolphin at Glen Cove, El Cano at Shanghai.

Sailed—Nevada, from Newport News for Annapolis; Minneapolis, from Hampton Roads for Tompkinsville.

Thorpe.

THOUSANDS WATCH THE SHIPS.

Squadron Indulges in War Manoeuvres and Secret Signal Practice.

ROCKPORT, Mass., Aug. 17.—War manoeuvres and secret signal practice were indulged by the battleship squadron in the earlier part of today. The weather was perfectly clear and thousands of visitors lined the shore to watch the ships, some of which were 10 or 12 miles at sea. The Missouri remained without about four miles of the harbor and appeared to be working out some naval problem. The torpedo boat destroyer flotilla did not go out with the battleships, remaining quietly at anchor.

The fleet returned to the harbor early this afternoon with the exception of the Iowa. That vessel steamed away in the direction of Boston. It is understood that the fleet will not go out again until it leaves port early in the morning.

G. A. R. TO GO TO SARATOGA.

Location Selected For Encampment of 1907.

MINNEAPOLIS, Minn., Aug. 17.—When the encampment of the Grand Army of the Republic opened today, the first question considered was the selection of a place for the next encampment. Yesterday Saratoga was proposed by the New York delegation and met with great favor. Today Cincinnati extended an invitation. The vote on the location for the encampment of 1907 consumed almost two hours. The vote was strongly in favor of Saratoga from the start, and that city was finally selected by a decided majority over Cincinnati, its only competitor.

THE BAND CONCERT.

The Newport Band gave a concert on the Mall last evening. The electric light decorations among the trees, put in for Carnival Week, were lighted, as was the gas illumination of the Lawrence Club, and things had a gala appearance. After the concert the band was entertained at the Lawrence Club by the members and gave another concert with intermissions. This Lawrence Club entertainment explains why the band concerts for Battery Park and the Mall were changed from the schedule.

VIOLENT JUMP IN STOCK MARKET.

Union and Southern Pacific Advance Rapidly.

Excitement Follows Announcement of Dividends.

NEW YORK, Aug. 17.—The executive committee of the Union Pacific Railroad Company and Southern Pacific Company announced today that the following dividends have been declared: a semi-annual dividend of 2 per cent on the preferred and a semi-annual dividend of five per cent on the common stock of the Union Pacific; and a semi-annual dividend of 2½ per cent on the common stock of the Southern Pacific Company.

The five per cent dividend on the common stock of Union Pacific compares with a previous dividend of 3 per cent on that stock. The dividend on Southern Pacific common stock is the first ever declared on that stock. Both dividends are payable October 1.

Union Pacific and Southern Pacific stocks made a paroxysmal jump in the stock market, even before the official announcement of the dividend declarations had been received through the usual news channels. Union Pacific was up 8½ to 171½ in the course of the first half hour, and Southern Pacific's rise to 89 was 5⅝ over last night's close. The violence of this advance and the evidence of alarm among the bears in these stocks, caused some apprehension of financial damage to the shorts. The course on prices in the general list was feverish in consequence.

This anxiety was partly relieved when Union Pacific and Southern Pacific fell back under realizing, Union Pacific reaching 168½ and Southern Pacific 85¾. The rise in prices was resumed when evidence of a demand for Pennsylvania developed and the strength of the market again became general. About noon Union Pacific was rushed up to 174 and Pennsylvania was advanced three points. The general market was extremely strong in sympathy but fluctuated sharply on profit taking by room traders.

The scene of excitement on the stock exchange following the announcement of the first dividend for Southern Pacific common, and an increase of 2 per cent. in Union Pacific common stock, has hardly been equalled since the memorable struggle for control of Northern Pacific five years ago. The two Pacifics became the centre of interest and immediately upon the announcement of the dividend there was a frantic rush of brokers to buy these two stocks. Many of them held orders for loss of 10,000 shares each. Room traders joined in the scramble to get the stock before the prices soared too high, and in the confused struggle which ensued little attention was paid to prices and the stocks were taken at whatever point they were ruling at that moment. At noon the excitement was at a boiling point, with Union Pacific still advancing and the trading then so heavy that the ticker was four points behind in reporting the advances.

CRACKED HANDS FROM BOYHOOD
Wonderful and Satisfactory Result Obtained by Use of Cuticura Soap and Cuticura Ointment at Expense of 75c.—Hands Now Well.

ANOTHER CURE BY CUTICURA REMEDIES

"My trouble has been cracked hands, or more correctly, ends of the fingers, from boyhood. I used all known remedies, the only benefit received being temporary relief by filling the little cracks or fissures with hot wax, pitch, tar, etc., to be frequently renewed to stop pain. On the 21st day of February last I purchased of W. A. Bibber, druggist of Richmond, one box each of Cuticura Soap and Cuticura Ointment, using freely, according to directions—result, wonderful and satisfactory. At this writing my hands are perfectly well. I have secured a second instalment of the Cuticura Remedies, and do not intend to discontinue the use of either." Wm. Patterson,
Country Road,
June 24, 1905. Dresden, Me.

BABY BOY'S ECZEMA
Cured By the Cuticura Remedies
"When my boy was six months of age, eczema appeared on his face, completely covering it. We soon commenced using Cuticura Toilet Soap, Ointment, and Resolvent, and at the expiration of six months, having used one cake of the Cuticura Soap, two boxes of the Ointment, and the amount of the Resolvent required with it, he was entirely free from the disease, and am happy to announce that we have seen no symptoms of it since. We can highly recommend the Cuticura Remedies." Mrs. Ezra Heald,
Oct. 9, 1905. N. Chatham, N. H.

Sold throughout the world. Cuticura Soap, 25c. Ointment, 50c., Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), may be had of all druggists. Potter Drug & Chem. Corp., Sole Props., Boston, Mass. Mailed Free, "How to Cure Torturing Humors."

FINANCIAL.

NEW YORK, Aug. 17, Wall Street—The stock market opened irregular, with Amalgamated Copper at 104¾, American Smelting 151½, Anaconda 200, Atchison 94½, Baltimore & Ohio 118¾, Brooklyn Transit 76½, Colorado Fuel & Iron 64½, Erie 43⅜, Louisville 145, Missouri Pacific 95, Norfolk & Western 92½, Pennsylvania 138¾, Reading 133, St. Paul 187¾, Southern Railway 37, Southern Pacific 83 to 83¾, Union Pacific 163 to 163½, United States Steel 41¾, United States Steel preferred 108¾.

11—The upward sweep of Union Pacific and Southern Pacific heralded the official announcement that semi-annual dividends of five per cent on the former and of 2½ per cent on the latter had been declared. Tens of thousands of shares changed hands with the wide leaps in prices. Union Pacific rose in half an hour 8¾ to 171½, and Southern Pacific 6¾ to 89. The general list was extremely feverish, and where advances occurred free profit-taking met them. The violence of the movement in the Pacifics caused anxiety for the consequences to a short interest. Several stocks gained from 1 to 1½. Union Pacific dropped back to 168½, and Southern Pacific to 85¾ and the excitement in the trading abated. Pennsylvania led on a rally with a rise of 2¾.

Noon—Money on call, steady, at 3½ per cent; prime mercantile paper 6½@6 per cent. Speculation was on an enormous scale and carried prices strongly upwards at various points with feverish fluctuations of a point or more, caused by profit-taking by room traders. Operations of this character were on a practically unlimited scale in and out of the market. Pennsylvania rose 3, Northern Pacific 3½, Great Northern preferred 2⅝, Reading 2, Louisville and Nashville, Rock Island preferred, the United States Steel stocks and Smelting 1 and a half to one and three quarters; and numerous others a point or more. Union Pacific was rushed up to 174 about noon and the market's activity reached the boiling stage. Bonds were neglected.

LARNED DEFEATS WRIGHT.

Former Champion Wins in Straight Sets from National Title Holder at Southampton.

Both of the semi-final lawn tennis matches proved sensational events on the courts of the Meadow Brook Club at Southampton, Long Island, yesterday. Former Champion William A. Larned defeated the national title holder, Beals C. Wright, and the youthful expert, Karl H. Behr, Jr., won over the intercollegiate champion, Edward B. Dewhurst.

Larned won his match in straight sets by the score of 6-1 and 10-8. Three gruelling sets were necessary before the young Yale captain could make his advancement, and his score over Dewhurst was 4-6, 9-7 and 6-3.

One account of the Larned-Wright match says: "In nowise was the racket work of the national champion a disappointment to the big gallery that crowded the porch of the clubhouse. He forced the playing of Larned, but he was unable to check the swift driving of the ex-champion, and also to get his lobs so that the ball fell at the baseline. His fault was that he misjudged distance, and the ball dropping short afforded the veteran splendid opportunities to smash, and he was not slow to take full advantage of them. Larned was also faultlessly accurate on his drives for place. In this manner he compelled Wright to keep on the run from side to side of his court, and then getting up to the net, Larned shot the ball over the border at such a difficult angle that it was impossible for the champion to make a return."

DEATH OF COLONEL EDWARD FIELD, U. S. A.

Lieutenant Colonel Edward Field, U. S. A., retired, died Wednesday at Livermore, Cal., in his 65th year. Lieutenant-Colonel Field was well known in Newport, having been the commanding officer of light battery B, Fourth U. S. Artillery, at Fort Adams, from 1893 to 1896, succeeding Captain Harry C. Cushing. Captain Field was prominent in Grand Army circles during his stay in Newport and gave the Memorial day address in 1895. He was born in New Jersey May 18, 1841, and entered the volunteer service as second lieutenant, First New Jersey cavalry, August 29, 1861, and was honorably mustered out February 28, 1862. He was appointed second lieutenant in the Fourth U. S. Artillery, permanent establishment, in 1862, and served till retired, June 6, 1900, as lieutenant colonel, Third Artillery, for disability incident to the service. He was advanced to the grade of colonel on the retired list April 23, 1904. Since his retirement he has made his home in California.

DEATH OF A FALL RIVER LINE PORTER.

Joseph Ashby, a porter on steamer Priscilla, of the Fall River line, died on the trip of that boat to New York from Fall River Monday, and his funeral will be held in New York Saturday morning at an hour convenient for his associates to attend. Ashby was in his sixtieth year and was one of the oldtimers on the Sound boats. He was a Civil war veteran, serving in the Third New York Regiment, a body of colored troops. He had been employed on the boats traversing the waters of the Sound for about 30 years, having been on the Stonington when she collided with the Narragansett; then on the Rhode Island when she went ashore on Bonnet Point; later on the old Providence, the Pilgrim, Plymouth, the new Providence and the Priscilla.

NEW HAVENS WIN RHODE ISLAND CUPS.

Play in the Point Judith Country Club's polo tournament yesterday was for the Rhode Island cups. New Haven, receiving seven goals, defeated Point Judith by a score of 14 to 8.

The teams and handicaps were as follows:

New Haven—R. G. Keeney 1, C. P. Dixon 2, L. E. Stoddard 3, Harold Phipps 2; total handicap, 8.

Point Judith—W. A. Hazard 3, R. La Montagne, Jr., 5, R. E. Strawbridge 6, Paul J. Rainey 2; total handicap, 15.

New Haven earned 7 goals and were allowed 7 goals by handicap, total 14. Point Judith earned 8 goals.

MUCH TALK BUT NO BLOODSHED.

There was some excitement in the West Broadway district Wednesday afternoon and early Thursday morning. First on the program was a wordy war between two colored men, who were talking "cutting," with a convenient knife lying in the gutter, for which neither would stoop. There was no cutting except the cutting remarks of the combatants. In the small hours of Thursday morning a pistol shot was heard to ring out and Officer Estock got busy. He found two colored men who did not have any firearms, and let them go. They had evidently been in the party but did not do any shooting, and the one shot fired was evidently in the air and did not hit any one.

THE NEW RAWSON HOUSE.

Contractor M. A. McCormick is at work on the cottage for Mr. Edward S. Rawson of New York on Ocean avenue, just west of the Buck place. He had previously constructed a garage and a short while ago started the house. Mr. Rawson, wishing to be near the place while it is under construction, has leased the Kenney house, nearly opposite, and is occupying it this summer. He has revolutionized the appearance of things at Kenney's by removing the old sheds which stood near the road and making other changes which have greatly improved the appearance of that part of Ocean avenue.

James Webb of Peters, San Joaquin County, Cal., celebrated July 27, his 100th birthday. He was born in Kentucky. He had 13 children, seven of whom survive, the eldest being 80. He has 71 grandchildren, about 150 great-grandchildren, and 20 great-great-grandchildren. One hundred of his descendants attended the celebration.

THE USE OF STAFF.

Suggestion Which Has Saved Twenty Million Dollars to Builders of American Expositions.

Leo Bonet of New York, who first introduced staff as a construction material for exposition buildings and statuary in the United States, has arrived in Norfolk on business connected with the Jamestown Exposition of 1907. Mr. Bonet, through his suggestion that staff be used in the construction of the Columbian Exposition at Chicago, may be credited with having saved about $20,000,000 to the builders of the several expositions that have been held in this country since 1893. The late Colonel Sellers of Missouri was a suggester of schemes with "millions in them." This man's suggestion really pulled out the millions.

Born in France, Mr. Bonet came to the United States 20 years ago and became an American citizen. In 1891, when the first great American exposition since the Philadelphia Centennial was in embryo, Mr. Bonet went to Chicago. The problem of creating an architectural display with the maximum of magnificence at the minimum of expense was under discussion. Wood, glass and tin were chiefly employed at Philadelphia, resulting in structures more useful than beautiful.

Mr. Bonet proposed to the Chicago exposition builders that staff be employed as the principal constructive material for outside finish and ornamentation. At first his suggestion was not very seriously considered. The Frenchman was told that staff was not sufficiently durable; that, like the fabled wings of icarus, it "couldn't stand sun-heat and hard whacks," and other wear and tear of weather. To disprove this notion, Mr. Bonet made some staff figures and set them on top of the Rookery building in Chicago, exposed to a winter of rough weather. The next spring it was discovered that the staff had stood the storm.

After due consideration, staff was adopted, and the Columbian Exposition saved $1,500,000 in addition to the achievement of the most beautiful exposition ever held up to that year. Since then every exposition has been built chiefly of wood and staff, saving in each instance millions of dollars. Had these world's fairs been built of steel and stone the cost would have been enormously greater and the time required in construction would have been doubled. For temporary buildings staff is now universally used.

The first staff building in America was the Woman's building at the Chicago fair, which was the work of Mr. Bonet. The Fine Arts building at that fair, which was the work of Mr. Bonet, still stands as a monument to the endurance of staff, or rather the endurance of paint, which protects the staff from the ravages of inclement weather. Paint sticks to staff tenaciously, and the material is capable of treatment by any color scheme desired. The bewildering beauty of expositions, in tint and hue, is due to a combination of plaster of paris, hemp and dextrine—component elements of staff—and the pigments which protect and beautify its surface. Not only in the buildings themselves, but in their artistic ornamentation of frieze and cornice and in the statuary that embellishes the grounds, is staff now employed.

At the approaching Jamestown Exposition, which will open April 26, 1907, on Sewell's Point, six miles from Norfolk, another radical departure in the construction of exposition buildings is to be taken. Heretofore every great exposition in this country has been built only for temporary use. Most of the buildings at Sewell's Point are to be permanent. Accordingly, the quantity of staff used will be comparatively small. The exposition site is on the shore of Hampton Roads, that famous sea-way and summer resort region.

It is believed that after the exposition there will be a demand for the various buildings, to be used as hotels, clubhouses and summer residences. With this idea in view, there is extra inducement for the participation of the various states. The site of each state building is deeded to the state occupying it. The state is erecting a substantial structure of brick or other durable material, and at the close of the exposition the building and site may be sold by the state just as any other desirable improved real estate is sold. Thus each state will be able to recover the cost of its building, and in some instances probably make a profit on the investment. Heretofore exposition buildings have been sold to wrecking companies at a mere pittance, sometimes less than five per cent of the actual cost. The Jamestown buildings, located on splendid sites overlooking Hampton Roads, close to beautiful bathing beaches and "swept by ocean breezes," no doubt will be in demand for permanent use.

Much staff, however, will be used in the exposition features that are necessarily temporary, such as the statuary, the arches, the bridges and the exhibit booths and decorations. The grand group of government buildings will be constructed of staff.

THE FORBES—WINTHROP ENGAGEMENT.

The engagement is announced of Miss Margaret Winthrop, daughter of Mrs. Robert Charles Winthrop, Jr., of Boston to Mr. James Grant Forbes, also of Boston. Both Miss Winthrop and Mr. Forbes are guests of the Misses Ellen P. and Ida M. Mason at the latter's cottage on Rhode Island avenue. Both of the young people are members of prominent Boston families. Miss Winthrop is a granddaughter of the late Hon. R. C. Winthrop, one of the most prominent men of Massachusetts and who represented that state in both branches of Congress, and a lineal descendant of Governor Winthrop, the first governor of the Massachusetts colony. Her brother, Robert Mason Winthrop, is attached to the American legation at Brussels. Mr. Forbes is the youngest son of Francis Blackwell Forbes of Commonwealth avenue, Boston, and is himself a graduate of Harvard University in the class of 1901.

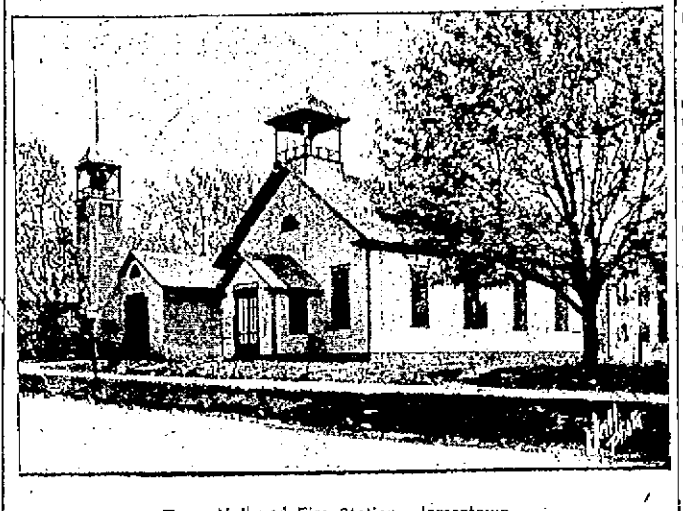

GENERAL WHEELER'S DAUGHTER ENGAGED.

Announcement was made in Wheeler, Ala., yesterday of the engagement of Miss Carrie Peyton Wheeler, a daughter of the late General Joseph Wheeler, to Mr. Gordon M. Buck of New York. The marriage will be celebrated very quietly October 2 at the country home of the bride's family, in Wheeler, Ala.

Miss Wheeler is the youngest of the four daughters of the renowned fighter, who died last January. Her sisters are Misses Lucy L. and Annie E. Wheeler and Mrs. William J. Harris. She has one brother, Major Joseph Wheeler, Jr., Artillery Corps, U. S. A.

Miss Wheeler is quite well known in New York, having been a member of the younger set in society while General Wheeler made his home at the Waldorf Astoria, and is known in Newport, where she lived several months with her father.

Mr. Buck, like his fiancee, is a Southerner and has resided in New York for several years. He is a lawyer and belongs to the University Club and the Southern Society. He was graduated from the University of Virginia in 1894.

Town Hall and Fire Station, Jamestown.

THE KAISER'S HORSES.

Royal Stud Consists of Selected Animals From Trakehnen—Finest of Flock for Emperor.

[Marquise de Fontenoy.]

Emperor William is probably the most magnificently horsed monarch in Christendom. This is due to the fact that as King of Prussia he has a right to select free of cost each year as his royal perquisite 20 of the finest horses—that is to say, the pick of the flock—from the state stud at Trakehnen. The latter is a national institution of world wide fame, upon which the government ever since the days of Frederick the Great has lavished enormous sums. Every year some of the finest horses on the English, the French and the American turf are purchased, well nigh regardless of cost, and are carried off to this huge breeding farm of the German cavalry. The stallions selected have always been those in whom speed and weight-carrying capacity are united in the highest possible degree, the result being that, after nearly 200 years, the Trakehnen has become one of the finest breeds in the world. Every year in the month of May the four-year-olds are distributed among the auxiliary or secondary stud farms of Prussia, not however, before the Emperor's master of the horse has had his pick of the finest 30.

It is this constant addition to his stables, without cost to himself, that renders it necessary for the Kaiser to sell each spring the surplus stock of his own stables in order to make room for the new-comers. It is as well to explain this, since these clearance sales of the royal stables at Berlin have excited a good deal of criticism, some people blaming the emperor for thus ridding himself of faithful equine servants entitled to a restful old age, while others have assumed that these sales indicated that the kaiser was too hard on his horses and quickly wore them out. Neither of these insinuations is therefore just. The kaiser has not room for more than a certain number of horses in his stables, is obliged to make room for the new batch of 30 that arrive from Trakehnen each May, and naturally gets rid of the inferior material, retaining only the very best. In fact, there is a perpetual process of selection and elimination going on.

A feature about these Trakehnen horses of the Kaiser is their extraordinary docility. That spirit of subordination to authority which dominates all things living in Germany operates on the colt from its birth. You can enter a field at Trakehnen in which a hundred three-year-old stallions are running free, watched by a couple of mountain herders, and although a stranger, you may walk in the midst of them, pat them on the nose or flank and they will show themselves as gentle as sheep, and as shy, in spite of their being animals of good blood and of unquestionable spirit and pluck. To achieve such a result prizes are offered to those herds whose horses show the most commanding disposition on the approach of man. In order to promote this quality, it is made a rule that each day the colts are to be stroked by the hand, their feet raised and in other ways so treated as to make them thoroughly familiar with their future masters.

Trakehnen is situated in the easternmost portion of Prussia, and the property is about 10 miles in one direction and stretches seven miles in the other. It was the father of Frederick the Great who first pitched upon the place, and who converted the swamp, over which the moose roamed wild, into the finest pasture land in Germany. Of course, the least favorable feature about Trakehnen is its geographical position with regard to Russia; and, as a matter of fact, it has three times been exposed to capture by invasion from across the eastern frontier, but on each occasion the officials in charge of the Trakehnen stud farm have been able to escape with all the animals in their charge.

Within a drive from Trakehnen is Rominten, the favorite hunting retreat of the Kaiser, with forests well stocked with wild deer and boar, and where, it may be remembered, he received Count Witte on the latter's return from America, on the conclusion of the peace at Portsmouth.

PRIMROSE'S MINSTRELS.

George Primrose and his big minstrel company will present at the Opera House next week a performance by a large company of humorists, comedians, vocalists, dancers and musicians, with every scene, act and song true to Southern flavor. The old-time jubilee melodies, refrains and dances which are ever popular with the public are not only used ingeniously from a musical standpoint but are cleverly intermingled with the story of different scenes picturing the South. The staging and costuming will be noteworthy features of this production. Mr. Primrose has surrounded himself with well known comedians and vocalists. In addition to the large number of vocalists and comedians, a complete operatic orchestra of soloists is carried.

MRS. WILLIAM B. LEEDS ENTERTAINS.

Mrs. William B. Leeds gave last evening her first entertainment of the season at the Drexel villa at Ochre Point, a dinner for 40. The guests were seated at one large table, the decorations by Wadley & Smythe being of the new Killarney roses, which were placed in silver vases in the centre of the table, surrounded by crescents. Mrs. W. Watts Sherman also gave a large dinner at her residence on Shepard avenue, entertaining 32 guests. The table decorations, by Wadley & Smythe, were of Wellesley roses. Mrs. J. Thompson Spencer gave a dinner at her villa at Ochre Point in honor of Hon. John Wallace Riddle, American minister at Budapest, Roumania, who is her guest. Dinners were also given by Mrs. Cornelius Vanderbilt, Mrs. Glen Collins and Mrs. Oliver G. Jennings.

Luncheons were given yesterday by Mrs. Thomas Hitchcock and Mrs. Fellowes Davis at the cottages, and by Mr. J. Borden Harriman on yacht Mohican.

Mrs. George Henry Warren will give a reception this afternoon at her villa, "Seafield," on Ocean avenue, in honor of her daughter, Miss Constance Williams Warren, one of the debutantes of the season.

Mrs. Reginald De Koven gave a luncheon at Narragansett Pier yesterday, taking her guests from here.

Among those who will entertain tonight are Mrs. Cornelius Vanderbilt, Mrs. Nathaniel Thayer, Mrs. Pembroke Jones and Mrs. William B. Leeds.

Mrs. Fish will give a notable entertainment at "Crossways" on the night of August 25. There will be 140 at dinner, the largest dinner of the season, and this will be followed by a vaudeville entertainment.

PORTSMOUTH.

[Regular correspondence of the News.]

Mr. and Mrs. Henry L. Church are spending a week in New York.

A young man by the name of Gomes, whose home is near Portsmouth station, has been working for Dr. Burton W. Storrs for more than a year. The doctor had a fine bicycle which he gave him permission to use while in his service, but on his dismissal this week he took the wheel with him, sending word to the doctor that he had sold it but did not know the purchaser. The affair has been put in the hands of Officer Reilly.

Mr. Thomas Appleby and his daughter Nora, of Pictou, Nova Scotia, are visiting near Island Park.

There will be prizes for children at the Newport County Agricultural Fair the same as last year, for excelling in speaking and singing.

Mrs. William J. Dunn and four children and Mrs. William S. Smoot and her sons Phil and Sidney took dinner at Seaconnet Point Thursday and report an abundance of clams, lobsters and other good things.

There was a great crowd at Island Park last evening. The fireworks were fine and gave good satisfaction.

The round trip ticket for Seaconnet on Field Grange day is so cheap that it is expected that a large company will go.

Aunt Mary Hathaway, 95 years of age, attended the Christian Church clambake at Southwick's Grove Wednesday.

Mrs. Samuel Cory of Acushnet, Mass., is visiting Mr. and Mrs. L. Lincoln Sherman and family.

GLASS.

Glasses of all kinds for cool drinks, iced tea and coffee, lemonade, soda, ginger ale, etc.

POWER BOAT RACES.

Ina and Hope II Win in Sixth Contest by Fall River Yacht Club at Tiverton.

The sixth of a series of power boat races was held yesterday afternoon off the Tiverton club house of the Fall River Yacht Club. In the first-class J. Wilkinson's Ina defeated F. R. Lawton's Hope by one minute and the Marquis in the same class came in ahead of the H. and M. by seven seconds. In the second class the Hope II, a newcomer, won out over Dan Curran's Anna by a minute and 40 seconds. The Marguerite, owned by I. F. Manchester, Jr., was also a new entry and showed up well. The start was at 4:35. The summary:

First Class.

	Finish	Elapsed time
Ina, J. Wilkinson	5:11:55	36:55
Hope, G. R. Lawton	5:12:55	37:55
Marquis, J. Walmsley	5:20:31	44:31
G. & M., J. D. Crossen	5:20:38	45:38
Lois, B. Bartlett	5:50:22	55:22

Second Class.

Hope II., Gifford	5:22:17	42:17
Anna, Dan Curran	5:23:57	43:57
Pooh Pooh, Borden	5:23:15	53:15
Marguerite, I. F. Manchester, Jr.,	5:30:11	55:11
Dink, F. Rivers	5:53:00	58:00

ISLAND PARK FIREWORKS.

The fireworks at Island Park last evening drew a large number of people from Fall River, Newport and the country between. The show lasted half an hour and comprised a good assortment of rockets and bombs, the display of which was enhanced by the fact that they were set off from a raft off shore, whose reflections in the water and the black background seaward formed the best of conditions. Before and after the display the dance hall was crowded. The company is proving that a little attraction at the park will draw the people there by hundreds.

"EIGHT BELLS" FEATURES.

In the new "Eight Bells" a white horse formed by two men is a feature of the first act, and his antics and interest manifested in matters progressing on the stage are funny. The trick couch is a vehicle for some merry moments, with a trio of strange acting passengers. A tumbling turn and a funny fire scene for a finish are among the star acts. Numerous specialties are introduced by the Byrnes Brothers and a revolving ship, which imprisons the brothers in their rooms like squirrels in a tread-wheel, evokes applause.

THE POTATO CROP.

The potato season on the island seems to be nearly at an end, and to have been a poor one. All the buyers have now left the Island and are looking for tubers elsewhere. The local potatoes did not turn out as well as in years past, the weather conditions being poor, and the shipment was therefore much smaller than usual. However, there may be a considerable increase in the number of barrels shipped, as the growers are still sending potatoes on commission.
